## **Two days Entrepreneurship Awareness Program**

The two days Entrepreneurship Development Program (EAP) for engineering Graduates was organized by the Entrepreneurship Development Cell(EDC) of Mangalore Institute of Technology & Engineering (MITE) in association with the Institution Innovation Council and the New Age Innovation Network of the Department of IT, BT, S&T, Government of Karnataka. The EAP was inaugurated by Mr. K Socrates, Deputy Director, MSME DI, Mangaluru. Inaugurating the event, Mr. Socrates stressed on the need for students to be ambitious and said that Intelligence without ambition is like a bird with no wings. Ambition becomes habit and habit becomes a way of life, this is crucial for entrepreneurs to succeed he said. In his presidential address, Dr. G L Easwara Prasad, Principal of MITE spoke about the entrepreneurship ecosystem at the institution and the vision of the institution to handhold young graduates who aspire to venture into businesses. He urged the students to constantly evolve, explore and exploit from what they learn. Dr. Joseph Michael Jerard, Head of MITE EDC welcomed the gathering and Mr. Glenson Toney, Manager, MITE Incubation Center hosted the event. MITE has been organizing Entrepreneurship Awareness Camps every year since 2017 in association with NSTEDB, Government of India.

**Day 1: Session 1: Startups- An ocean of opportunities for young graduates**

Mr. K Socrates who delivered the keynote address spoke about the opportunities for young graduates to pursue entrepreneurship in the changing times, and stressed on the need for exploring them. He also talked about the characteristics of an entrepreneur & their undying passion and also hinted at the paradigm shift that India is witnessing where young men and women are inclined towards entrepreneurship.

**Day 1: Session 2: What does it mean to be an Entrepreneur?**

If you can dream, you can do it, said Mr. Praveen Desai and Entrepreneur addressing the students. He spoke about the outlier approach of entrepreneurship, Innovation as a game changer and the process of venture formation. HE spoke about the reasons why ventures fail, and about the 8P's of Entrepreneurship: Passion, Perseverance, Perception, People, Proactiveness, Permanent change, Persistent learning & Potential.

**Day 1: Session 3: Story of Blackfrog Technologies**

Mr. Donson spoke about the challenges of being an entrepreneur and how it fuels their journey and helps life not to be monotonous unlike the ones who opted for a job. The interactive session had Mr. D'Souza talk about building the right team, hiring the right people, starting off on your own. He spoke about times when as an entrepreneur he wanted to give up, how he rose above the odds and dealt with family pressure being a first generation entrepreneur. Donson urged students to keep their passion alive and follow dreams for the journey isn't easy but would be very satisfying.

**Day 2: Session 1: Start-ups- An ocean of opportunities for young graduates**

Mr. Sundar Sherigar spoke about his journey and how a few experiences changed his vision about entrepreneurship. HE asked students to have the intent clear, explore opportunities and schemes of the government, streamlining ones business, using technology to analyse the business path. He spoke about the business requirement for building a successful venture:

Free memory, Sharing knowledge and Trust.

**Day 2: Session 2: From graduate to an Entrepreneur**

Mr. Prajwal spoke about the shift from being a student to an entrepreneur. He spoke about the need for entrepreneurs to have an out of the box thought process, thorough knowledge of what one wants to do and need for building the right team. Human resource management is the most important factor and would indeed lead to success of a start-up he added. Start-ups also need to revamp and reinstate themselves with changing times and technologies to sustain and make themselves relevant he said.
