5: SC/ST/OBC scholarship support

The Constitution of the country, promulgated in 1950, recognizes the scheduled castes and the scheduled tribes as the two most backward groups in Indian society needing special protection. India, a country of diversity, a mix of different religions, castes and cultures, is characterized by a highly-entrenched system of social stratification. Scholarship is sanctioned to the SC/ST/OBC students to pursue their studies without any financial constraints. The SWC-MITE is helping in eliminating the social disparities in compliance with the Government of India and UGC guidelines by providing all necessary information to SC/ST/OBC and other students to make use of the facility provided by the government.
