Rainwater Harvesting Awareness Program

Date: 15th August 2019

“Awareness Program on Rain Water Harvesting and their Implementation at Thodar Village” has been conducted on the occasion of 73rd Independence Day – the importance of rainwater harvesting and their implementation program was jointly organized by Department of Civil Engineering and Thodar Charitable Trust® arranged at Sri Thodar Kshetra, Kodamanithaya Daivasthana, Moodabidri, Dakshina Kannadadistrict. Around 52 students actively participated in the event.

Increasing global warming is having an adverse effect on climate, especially how our monsoon cycle is disturbed. "Erratic rainfall is one of the causes for reduced availability of the water. Government at all the levels is advocating ground water recharge using rain water harvesting (RWH). Thus there is need for spreading awareness about RWH methods”.

Resource Person Dr. Jayaprakash has given the guidance and importance of Rainwater harvesting in the present scenario of the water scarcity during summer season with few case studies. He also focused on locally available materials to use for the implementation of rainwater harvesting for the individual houses is needed in the present situation to concern on sustainable development.

In the inaugural address presided by the Sri. Balakrishna Shetty, Advisor, ThudarCharitable Trust® had given welcome speech to the gathering followed by Dr. Ganesh Mogaveera, Professor and Head, Department of Civil Engineering has overviewed on rainwater harvesting and responsibility of the society in the scenario regarding the water crisis. Introduction

Digital Awareness Program, which was made compulsory by All India Council for Technical Studies (AICTE) for technical education and to promote development in the country in a coordinated and integrated manner by the upcoming generation.

As per the program, our program was scheduled from 13 January 2020 to 18 January 2020. Our destination was the village named Kallamundkur and we have managed to cover all the parts of this village trying to aware the village people about modern technologies and necessities. We had covered more than 50 houses each day in groups by taking survey and spreading awareness for the first 2 days and the rest 3 days we shared our time with school students giving them information about Digital Library and career guidance. Around 51 students actively participated in this program.

Our program was coordinated by our faculties Mr. Avinash Patil and Mr. Suraj Shet. We have extreme gratitude to our beloved Head of Department Dr. Ganesh Mogaveer for helping us complete this event. For the accomplishment of this event, we would be thankful to our chairman Mr. Rajesh Chouta, our principal Dr. G L Easwara Prasad and the PDO of the village Kallamundkar, Mr. Uggappa.

Dr. Ganesh Mogaveer, our HOD gave us the brief information regarding the village, the village people and our behavior towards the village people. We started our journey by bus no.8 to the village Kallamundkur at 8am. It was a warm place with good bunch of people. We were instructed to cover each and every house of the area allotted for the respective groups and make them aware about the various necessities of our country nowadays. It includes Aadhar card, Passport, CBSE education, EPFO, Pay Income tax, PMAY, Pan card and Bharat gas. We had a good time with the people but on the first day we had interactions more with educated people in the village. It is possible that social media addiction contributes to lower self-esteem, which, in turn, leads to a decrease in mental health and academic performance. In other words, self-esteem may play a mediating role in the relations of social media addiction to mental health and academic performance.

The students of Batch B1 presented the different aspects of social media addictions. The act was performed by considering some of the recent addictions such as "PUBG" and "TIK-TOK". The activity was performed near Vidyagiri, Moodabidri.

Cleaning ground, Government school, Paladka

After reaching the village we divided ourselves into groups and visited various places as per schedule. Each group was given with different work at different places. Our group had visited the Kadandale School and cleaned the school premises.

The objective of the day was to clear a patch of land, which resided behind the school, from unwanted plants, which occupied there and grew during the monsoon season. That patch of land contained loads of weeds (unwanted plants), which we chopped off using sickle.

After cleaning we created awareness about efficient and scientific methods of waste management among the students. Around 20 students participated in the program.
