## Anveshana- Science & Engineering Fair

Anveshana Program is structured around the concept of mentoring, “catch them young” and “facilitate the inquisitive minds”.

“Mentoring is a process for the informal transmission of knowledge, social capital, and the psychosocial support perceived by the recipient as relevant to work, career, or professional development; mentoring entails informal communication, usually face-to-face and during a sustained period of time, between a person who is perceived to have greater relevant knowledge, wisdom, or experience (the mentor) and a person who is perceived to have less (the protégé)”

(source: <http://en.wikipedia.org/wiki/Mentorship>).

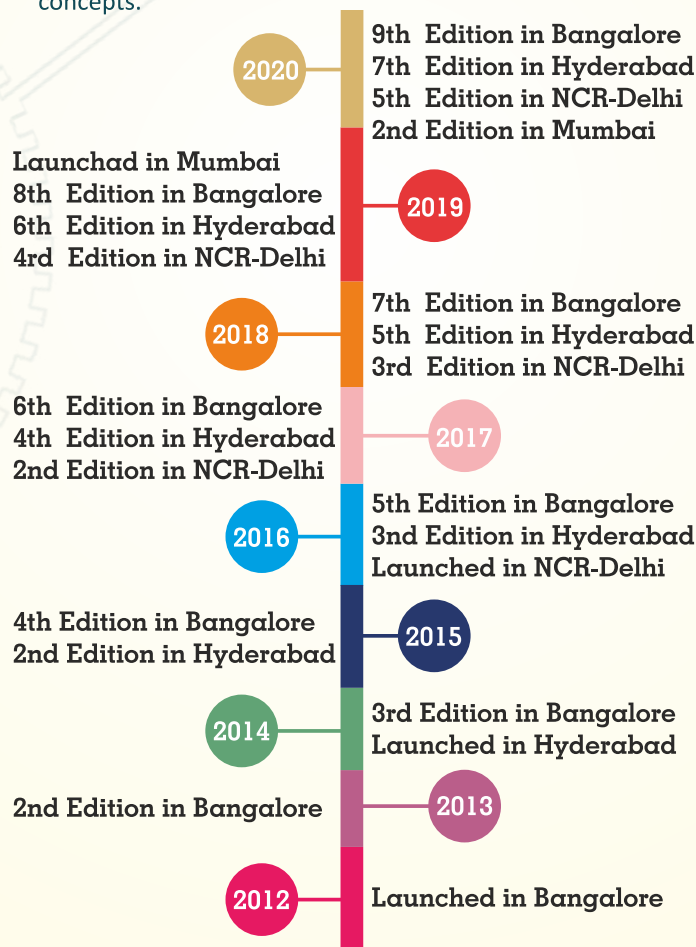

*The program looks at Involving school students to provide an opportunity to work with engineering students to find solutions for the encountered social problems.*

Engineering colleges will participate as teams with 2 members. The teams will select 2 students from nearby underprivileged schools (Govt. and Govt. aided schools) to mentor them to design and build models or projects around an identified social problem. In the process school children would directly get the opportunity to work together with more qualified under-graduates, and a chance to 'learn' the basic principles (along with hands-on skills on diverse products and interesting processes). The interaction with Juries and dignitaries would be a life-time experience for them to cherish. The school students thus will be exposed to entire planning, designing and building process of the models and in turn will get educated in the scientific and engineering concepts behind the models in Anveshana. ([www.anveshana.org](http://www.anveshana.org))

Over 200 ideas are expected to be generated from 150 engineering colleges, out of which 30 to 40 projects will be displayed and the best 10 will be honoured with cash award. The fair will be spanned over 2 days and expected to be visited by over 3000 Government school children and college students.

### Objectives

- To develop innovation and creativity among students from engineering colleges and nearby disadvantaged schools.
- To facilitate process of mentoring between engineering students and school students while they plan, design and make the models together.
- To Bridge the knowledge gap between school and higher education through integration of ideas and learned concepts.

Agastya International Foundation has been conducting it successfully in association with Synopsys India Ltd., from past 7 years in Bangalore and Hyderabad and NCR-Delhi.

Founded in April 1999, Agastya International Foundation is a charitable education trust that runs the world's largest mobile hands-on science education program for economically disadvantaged children and teachers. By making practical, hands-on science education accessible to rural government schools, Agastya aims to transform and stimulate the thinking of underprivileged children and teachers. ## II. NATIONAL SERVICE SCHEME (NSS)

The National Service Scheme (NSS) is a public service program, launched on 24<sup>th</sup> September 1969, Mahatma Gandhi birth Centenary year, aimed at developing student's personality through community service. The Father of Nation, Mahatma Gandhi had suggested that students instead of undertaking academic research about economic and social disability, the students should do "something positive so that the life of the villagers might be raised to a higher material and moral level".

The motto of National Service Scheme is "**NOT ME BUT YOU**", reflects the essence of democratic living and upholds the need for self-less service.

NSS team at MITE aims at developing youth personality through community service. The combined effort of both the students and faculty of the NSS-MITE committee help in the betterment of the society through soulful activities such as Blood donation, Charity to the needy, Swachh Bharat Abhiyan, Plantation drives, Flood relief supports and many such activities.

## **YOUTH RED CROSS (YRC)**

Ultimate happiness is that of serving the Mankind. MITE believes that education is not complete without imbibing a sense of value and duty towards fellow human beings. It is very important for the young minds to dedicate themselves to serving the society in whatever way they can. MITE has, therefore, established a Youth Red Cross (YRC) unit in the campus to provide such a platform to students. YRC, working under the Red Cross Society of the Government of Karnataka, is the forum where student volunteers come together with an objective to engage themselves in selfless service to the society during the hours of crisis.

Red Cross activities includes organising Blood donation camps, Medical camps, Serving relief operations etc.

## **Activity: Visit to Chethana Special School**

**Date: 07.08.2019 to 19.08.2019**

Our institution takes pride in an impressive roster as part of the National Service Scheme (NSS) within the campus. Headed by Mr. Sathyanarayana, HOD, Department of Mechatronics Engineering, the students were taken to Chethana special school, Karkala. The team from MITE conducted various performances and games that spread a lot of smiles and joy to the inmates. As an amazing gesture the kids performed a small program that lightened up the session. Around 513 first-year students were grouped into different teams for this activity. Each batch visited these places separately along with the faculty coordinator.
