Professional Development /Administrative Training Programs Organized by the Institution for Teaching and Non-Teaching Staff

Annual Report 2019-20

In the academic year 2019-20, the Institution has organized 8 programmes for the benefit of faculty and other staff of the college. Various programmes like laboratory training, New Education Policy, and ERP software training, etc. were organized to upgrade the technical and administrative skills of teaching and nonteaching staff. The various events are summarized in the following table.

Sl. No.	Date	Name of the Event	No. of Participants	Host Department

Report on

Outcome Based Education & NBA Accreditation

Preamble :

Outcome Based Education Model is Being adopted at faster pace in Engineering colleges in India. It is Considered as huge jump forward to improve technical education in India and help Indian Engineers complete with their global counterparts. Main objective of the FDP is to create awareness in faculty members about OBE System and to understand the implementation of OBE in NBA Process and to use various innovative teaching learning methods.

VTU sponsored this Faculty development programme and given direction to organize five days faculty development programme on “ Outcome Based Education & NBA Accreditation” in Association with Aryabhata Knowledge University, Patna, Bihar , Bijupatnaik University of Technology, Rourkela, Odisha. Mangalore Institute of Technology and Engineering, hosted this FDP from 30th December 2019 to 3rd January 2020.

DAY-1 (30-12-2019)

Dr. Shanmuganeethi. V presented brief information regarding Role of an Engineering Teacher and Outcome Based Education and its Implementation: He highlighted about OBE philosophy, PEO's, PO, CO and learning outcome. He also briefed about Goals, how to define Vision statement of the programme, Mission statement with respect to Business, purpose and value.

Dr. Thirumaleshwara Bhat furnished brief information regarding Bloom's Taxonomy for outcomes: He also explained about the various levels in Bloom's Taxonomy and its implementation in setting question paper. He also summarized about the various tools that can be used in order to satisfy the highest level in the Bloom's Taxonomy.

Dr. Thirumaleshwara Bhat explained regarding CO-PO Mapping. Guidelines to define COs: Action word used in framing CO. He suggested that to avoid using vague qualifiers and maintain

logical order in the Co content and usage of one action per outcome. He also briefed about CO statement and selection of smart words in CO statement and its essentiality.

DAY-2 (31-12-2019)

Dr.G.Janardhanan highlighted that Learning is fixed but learning time varies which implies that grasping power of students varies depending upon their ability to understand the concepts. He also said that learning time also depends on teaching strategically techniques. In reference to Outcome based education more focus should be toward end results i.e. whether a graduate has developed and gained sufficient skills so as to reach the industrial requirements.

Dr. Balasubramani R briefed about introduction on Accreditation which means formal recognition of an educational program by an external agency on the basis of impartial assessment against fixed criteria's. He also highlighted the difference between Input & Output and Outcome based Assessment. The Input based assessment focuses on Infrastructure, Number of students in programme, Teachers strength, supporting staff, Management policy, Curriculum content, Passing percentage of students. whereas Outcome based assessment deals with the student knowledge

DAY-3 (01-01-2020)

Dr. Suphala S Kotian started with quote by great scientist Albert Einstein that "Education is not the learning of facts but the training of the mind to think". She describes what is meant by a teacher, types of a teacher: Adhyapak, Upadhyaya, Acharya, Pandit, Drishta and Guru. She focused on problems of students and various skills for crafting an effective student learning

Dr. Sanjay H A presented a brief information about introduction on types of NBA evaluators, award of accreditation (Tier II for UG). He highlighted the student faculty ratios for 3 years and 6 years accreditation, specific departmental criteria's. Further he explained how each criterion's (from criteria 1 to criteria 6) are evaluated and documents of each criteria as proof and also proper justification. Topics covered in his talk:

Dr. Srinivasa Pai P presented brief information about regarding historical background of project based learning and other alternate methods: problem based learning, case based learning, design

based learning and so on. Later he explained what is Project based learning (PBL) which means is an instructional approach that has been used successfully for over 30 years

DAY-4 (02-01-2020)

Dr. Suresha S.N Presented brief information regarding Innovation by faculty in Teaching learning Process: He highlighted about guiding principles for innovation as: Do what you love; put a dent in the universe; kick start your brain; sell dreams not products; say no to 1000 things; master the message and so on. He also mentioned about the seven success principles of Steve Jobs stating Think Differently about Career (TDAY).

Dr. Ganesh Mogaveera Presented brief information regarding Importance of NBA accreditation in Technical Institution: He briefed about the strengths of NBA: admissions, placements, higher studies, faculty cadre proportion, innovation by faculty in teaching learning process, R&D, Budget allocation and utilization and so on. He also discussed about the objectives of the programme: Preparation, core competence, learning environment.

Dr. Thirumaleshwara Bhat highlighted, regarding Documents Preparation for Criteria 1 & 2 and Evaluators Perspective: He highlighted about the distribution of marks for the various criteria from 1 to 10.

DAY-5 (03-01-2020)

Dr. Prasad Krishna highlighted that Learning Happens after the class (Outcomes are always measured after the class). He said that During Mahabharata students has been evaluated based on their outcomes. He also briefed out the difference between outputs and outcomes and how the college is judged by the output which includes past percentage, placement details, number of publications, number of computers

per student and number of books per student. In reference to Necessary preparation for NBA process more focus should be towards a very well established Alumni relationship cell, program evaluation as well as professional accreditation.

Dr. Jayaprakash M C presented introduction about CAY – current academic year, CAY – Current assessment year. He briefed about 3. COURSE OUTCOMES AND PROGRAM OUTCOMES Which includes 3.1 Establish the correlation between the courses and the program outcomes (PO's) and program specific outcomes (PSO'S)

Experiments Hands on
Training

Vision

To develop technically competent Mechanical Engineering Professionals, Entrepreneurs and Researchers for the benefit of the society

Mission

- To provide a well-balanced program of instructions to impart concepts on basics and applied areas of Mechanical Engineering.
- To provide the state-of-the-art facility for learning, skill development and research in design and manufacture areas.
- To encourage the students to excel in the co-curricular and extra-curricular activities to impart social & ethical values and leadership quality.

Topic To be Covered	Speaker
Resource Person	Mr. Gautham Shetty
Topics covered	<ul style="list-style-type: none">➤ Operational knowledge of different modes of Heat transfer-conduction, convection, radiation.➤ Hands on experience on heat conduction through fins and heat exchangers.➤ Working on different parameters effecting the effectiveness, efficiency of heat transfer.➤ Practical exposure to the different equipment's involved in heat transfer interactions in industries.➤ Highlights on maintenance procedure, safety of Operation.

Heat Transfer Lab Experiments Hands on Training

Date: 6th January 2020

A one day training programme on Heat Transfer lab experiments was organized for the faculty members and Lab staff. All the experiments were demonstrated by the lab in-charge. The programme helped the faculties to update the knowledge about experiments. This helped the faculties to share the knowledge and discuss about the conduction of experiments. This enables the faculties to deliver the common content to all classes and also effectively.

Training Program Report

One-day training program on “Analog Circuits Laboratory Experiments” (18ECL48) conducted on 27-01-2020. All the VTU prescribed syllabus laboratory experiments covered in the training program. The detail of the experiment along with the resource person is tabulated below. The teaching and non-teaching staff attended the program.

Exp. No.	Title of the Experiments	Resource Person
Part A –Experiments		
1.	Design and setup the Common Source JFET/MOSFET amplifier, and to plot its frequency response.	Mrs. Sahana Devali
2.	Design and set up the BJT Common Emitter Amplifier under Voltage Divider Bias with and without feedback and determine the Gain Bandwidth Product from its frequency response	
3	Design and setup the following tuned Oscillator circuits using BJT, and determine the frequency of Oscillation.	
4.	Design Active Second Order Butterworth Low Pass and High Pass Filters	Mrs. Sahana Devali
5.	Design Adder, Integrator And Differentiator Circuits using Op-Amp	
6	Test a Comparator Circuit and design a Schmitt Trigger for the given UTP and LTP values and obtain the Hysteresis.	Dr. Sandeep Bhat
7.	Design a 4 bit R-2R Op-Amp Digital To Analog Converter (I) Using 4 Bit Binary Input from Toggle Switches and (li) By generating digital inputs using Mod-16 Counter.	

8.	Design Monostable Multivibrator and Astable Multivibrator using 555 Timer	
Part B-Simulation Experiments Using Multisim		
1	Design and verify the output waveform of an Op – Amp RC Phase Shift Oscillator and Hartley Oscillator for a desired frequency.	Dr. Sandeep Bhat
2	Design a Second Order Band Pass and Band Stop Active Filter for a given Frequencies	
3	To Design Half and Full Wave Precision Rectifiers	Mrs. Sahana Devali
4	Design Monostable Multivibrator and Astable Multivibrator Using 555 Timer

Report on NBA Module Integration with Campus Management Software

A one day hands-on training Session on NBA Module Integration was conducted to all the department Head's in in our campus management software powered by Heraizen Technologies Bangalore on 09th March 2020

Ms. Bhoomika KN, Business Analyst listed the requirements for the calculation of the attainment for the respective courses and the department heads were given an hands on Training on how to view the Tracker to check the progress completion of the tasks

The program mainly gave a brief insight on Gap identification for the specific program outcomes.

This Integration is very efficient as it reduces manual calculation and the is very time efficient.

Report on Hands on Training on New Revisions in CMS

A one day hands-on training Session on new revisions in the campus management software powered by Heraizen Technologies Bangalore was conducted to all Administrative office staff on 2nd June 2020

Ms. Bhoomika KN, Business Analyst explained the new revisions in the CMS. The HR Section were given an session on quick update of the Leave management of the Academic and Non Academic staff details. Integration of biometric attendance to their credentials to track their Login and Logout time viewing of online Leave Applications there by updating of Tracked/untracked leaves. The Accounts Section were given a Session on generation of Reports for various Sections like Student Fees, Faculty Attendance reports etc.

This implementation reduces the maintaining of hand written records as all the required information can be generated in one click

Awareness on Network Components and Network related Issues in the Campus

Department Of Computer Science & Engineering

organizes

One day Training Programme on

**Awareness on
Network Components
and
Network related Issues in the Campus**

Date: Aug 26, 2019

Venue: Innovation Centre

Morning Session

9:30AM to 12:30PM

Afternoon Session

2:30PM to 4:30PM

Vision

To establish as a Center of Excellence in Education and Research in the field of Computer Science & Engineering for transforming the students into Competent Professionals

Mission

- * Provide strong theoretical and practical background in Computer Science & Engineering and allied fields of Engineering.
- * Provide excellent state of the art infrastructure and competent man power to facilitate the need based technical education to the students with ethical and social values.
- * Encourage students to involve in Co-curricular and extracurricular activities.
- * Promote Research and Innovation activities among the staff and students.

Key Points:

1. Awareness of different network components like switches, routers, Firewalls and their inter connectivity
2. Talk on OSI Model, IP Classification and MAC filter
3. Practical exposure on structured cabling that includes punching and crimping cables
4. Trouble shooting Network using PING, TRACERT commands
5. Role of Internet and distributing it via wifi

MANGALORE INSTITUTE OF TECHNOLOGY & ENGINEERING
Department Of Computer Science & Engineering

Training for Non teaching Staff

Academic Year 2019-20

Title: Hands-on Awareness on Network Components and Network related Issues in the Campus

The training is held by the System Admin with IT People on 26 August 2019

Key Points:

1. Awareness of different network components like switches, routers, Firewalls and their inter connectivity
2. Talk on OSI Model, IP Classification and MAC filter
3. Practical exposure on structured cabling that includes punching and crimping cables
4. Trouble shooting Network using PING, TRACERT commands
5. Role of Internet and distributing it via wifi

One day Training Program on

Awareness on Network Components and Network related Issues in the Campus

Date: 26 August 2019

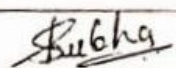

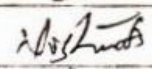

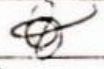

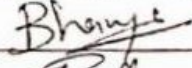

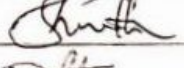

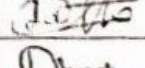

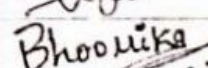

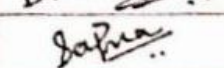

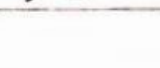

Morning Session

9:30AM to 12:30PM

Afternoon Session

2:30PM to 4:30PM

Attendees:

Serial No.	Name	Designation	Department	Signature
1.	Shubha	Foreman	Computer Science & Engineering	
2.	Nishmitha	Asst. Instructor	Computer Science & Engineering	
3.	Pavitra	Asst. Instructor	Computer Science & Engineering	
4.	Bhavya	Programmer	Computer Science & Engineering	
5.	Shwetha	Programmer	Computer Science & Engineering	
6.	Latha	Foreman	Information Science & Engineering	
7.	Divya	Asst. Instructor	Information Science & Engineering	
8.	Soujanya	Lab Instructor	Mechanical Engineering	
9.	Veekshitha	Lab Instructor	Mechanical Engineering	
10.	Bhoomika	Lab Assistant	Electronics & Communication Engg.	
11.	Sapna	Lab Instructor	Aeronautical Engineering
