2019-20	61	12,232

Support system for Advanced Learners

The cognitive and intellectual capabilities of the students vary significantly across all the programmes. Hence, the institute has a process to assess the learning levels of the students and accordingly extend support. The process starts with an orientation programme followed by an induction programme for the new batch of students every year. These programmes would help students and parents to get familiar with the institution, curricular and co-curricular activities, facilities, rules and regulations etc. further, during the course of study, students are identified as advanced learners based on their performance in Continuous Internal Evaluation(CIE) and involvement in academic performance. Advanced learners are nurtured beyond curriculum by encouraging them to,

- Undertake MOOCs (Massive Open Online Course) offered by NPTEL, Coursera, Udemy, Edx etc.
- Take key responsibilities in department and college level activities to enhance their leadership skills and team building ability.
- Take competitive exams and to pursue higher studies.
- Participate in Conferences.
- Participate in State and National level Project competitions and club activities at college level.
- Take part in cultural committee
- Take part in editorial boards for Department Newsletters.
