User awareness Programmes

The Library is an integral part of any educational and research Institution. A good and vibrant Library can keep the spirit of education alive. MITE-LIBRARY, under the guidance of the Library Advisory Committee, takes an active part in organizing activities for the faculty and students in order to update them with the latest in the field of education and research.

The newly joined first year students were given a guided tour of the library to get familiarization of the resources and services available in the Library. The students were also briefed about the library resources and the procedures to be followed for getting the books.

MITE Library organizes User awareness Training sessions whenever a new product, service or facility is introduced as a part of Library resources. Additionally, a few programs of general interest for the students and faculty of MITE are also conducted to create a better academic-research atmosphere on the campus.

A glimpse of the User awareness programs Conducted by MITE–Library are as follows:
