## **ICT/COMPUTING SKILLS**

ICT tools contribute to high quality lessons since they have potential to increase student's learning capabilities. The institute has state of art infrastructure with fully equipped classrooms to provide adequate facilities for teaching-learning. The classrooms are equipped with LCD projectors and smart boards. Multiple platforms like Zoom, Google meet, Google classroom, Edmodo have been used by teachers at the institute to communicate and to impart knowledge to the students. The use of innovative methods in educational institutions has potential not only to improve the quality of education but also to empower people, strengthen governance and galvanize the effort to achieve the human development goal for the country.

Various activities at department levels such as hands on session on current technologies in various domains, workshops, technical talks ,webinars enable the student to enhance the practical knowledge and develop their computing skills. Computing skills programmes bridges gap in curriculum.

## 5.1.3-ICT/Computing Skills (2019-2020)

Sl No	Name of the capacity development and skills enhancement program	Name of the agencies/consultants involved
1	Web Application Development using Angular and Node JS Framework	Mr. Sudesh Shetty, The Web People.
2	Web Application Deployment in Cloud Platform	Mr. Karan MV, Automation Anywhere Software Pvt Ltd.
3	Introductory Hands-on Session on Git & GitHub	Mr. Arpith, Final Year Student of Computer Science & Engineering, MITE.
4	Containerization & Deployment of Web Applications to the Cloud Platform using Docker	Mr. Karan MV, Automation Anywhere Software Pvt Ltd.
5	Hardware Connectivity with MATLAB & Simulink	Mr. Tabrez Khan, Math Works India
6	Real Time Applications of Embedded Systems	Dr.Mahantesh R. Choudhari, MARC Edu-Tech Solutions.
7	Hands-On Electronic Prototyping and Debugging	Mr. Edwin Thankachan, Circuitzpro.
8	Two-day innovation Boot Camp on IOT Applied to various domain	Mr. Jagmohan Meher, Engineer at Skyfi labs.
9	Report for workshop on IOT to sustainable Technologies	Mr. Shreyas K & Mr. Adithya FluxGen Technologies.
10	Workshop conducted by SAE collegiate Club of MITE	Mr. Girish Babu GUTS Mechademy & Mr. Harish Shenoy
11	MATLAB based mechanical engineering application	Dr. M Nandakatti and Dr. Arun Kumar P Professor GIT
12	Applications of CAD Tools in the Field of Mechatronics	Mr. Vinod Kumar K, CADD Centre.

**Title: Workshop on Web Application Development using Angular and Node JS Framework**

**Resource Person(s)/ Organization(s):** Mr.Sudesh Shetty, Chief Technical Officer, The Web People, software Startup, Puttur

**Educational Qualifications**

- B. E from VCET, Puttur

**Areas of Interest**

- Angular JS
- Node JS
- Android Programming
- Java programming
- Machine learning

**Date(s): 26 Oct 2019**

**Duration: One Day.**

**Target Audience: Computer Science Students**

**Brief about the event:**

A One Day Workshop by Mr.Sudesh Shetty, Chief Technical Officer, The Web People, software Startup, Puttur has enlightened the students on the fundamentals of web application development. The popularity of internet and web based applications for different successful business outline the need of insights on different web application development framework. The acquired knowledge on web application development would help the students to develop their own web applications for different problems and engage themselves in web application development business sector.

## Keynotes from the address:

Mr.Sudesh Shetty, Chief Technical Officer, The Web People, software Startup, Puttur, delivered a one day workshop on **“Web Application Development using Angular and Node JS Framework”** for CSE Students. The workshop was conducted in two sessions. In the morning session, the speaker addressed about basics of web application development. In the afternoon Session, the speaker conducted practical hands on session on different web application programs and its impact on web application user interface and also discussed about the web application backend development.

## Title: Web Application Deployment in cloud Platform

CORE organized a webinar on "Web Application Deployment in cloud Platform" for III & IV year Computer Science & Engineering Students on 13<sup>th</sup> June 2020. The Resource Person Mr. Karan MV, Developer Relations, Automation Anywhere Software Pvt Ltd, Bangalore, delivered 2 hour online session and enlighten our students on the need of Cloud platform for Web Application. The resource person explained the various concepts of web application deployment in cloud platform by taking industry ready examples and also engaged practical case study oriented showcase of steps involved in the web application deployment in Amazon Cloud platform.

### Report on the Webinar

**Title : Containerization & Deployment of Web Applications to the Cloud Platform using Docker**

CORE organized a Webinar on "Containerization & Deployment of Web Applications to the Cloud Platform using Docker" for III & IV year Computer Science & Engineering Students on 4<sup>th</sup> July 2020. The Resource Person Mr. Karan MV, Developer Relations, Automation Anywhere Software Pvt Ltd, Bangalore, delivered 2 hour online session and enlighten our student on resolving the myth on emergence of Containers next to Virtual Machine. The resource person explained the fundamentals of virtual machine and the emergence of containers for Cloud based application deployment. The resource person also showcased a practical case study on containerization of web application using Docker tool and deployment of the containers to the popular cloud platform.

### CIRCULAR

An invited talk is organized by Electronics and Communication Students Association on "Hardware Connectivity with MATLAB & Simulink" on 6 November 2019. Mr Tabrez Khan, Senior Application Engineer, Math Works India, will be the resource person for the talk. Interested students of the 3<sup>rd</sup> year are hereby informed to register your name with respective class advisor on or before 4 November 2019 and utilize this opportunity to enhance your knowledge by interacting with the industrial expert.

### **Department of Electronics and Communication Engineering**

#### **Activity Report**

**Title:** Invited Talk on “Hardware Connectivity with MATLAB & Simulink”

**Resource Person:** Mr. Tabrez Khan, Senior Application Engineer, MathWorks India

**Date:** 06/11/2019

**Timings:** 2:00PM to 4.00PM

**Target Audience:** 3<sup>rd</sup> year Students of ECE

**Profile of the Speaker:** Mr. Tabrez Khan is specialized in Signal Processing & Communications. He is a senior application engineer in MathWorks India. He has over 16 years of industry experience and has worked with vendors in Aerospace & Defense, Communications, Electronics, Semiconductor and Education field to adopt MATLAB and Simulink based products in signal processing and communication applications. He holds Master's degree in Digital Electronics & Communication from NMAMIT, Nitte & Bachelor's degree in Electronics & Communication from BIET, Kuvempu University, Karnataka.

**Keynote address:** In his address, he enlightened the students about the Hardware Connectivity with MATLAB & Simulink. MATLAB combines a desktop environment tuned for iterative analysis and design processes with a programming language that expresses matrix and array mathematics directly. It includes the Live Editor for creating scripts that combine code, output and formatted text in an executable notebook.

He briefed about how to integrate the generated code as source code, static libraries or dynamic libraries into an application specific module. Usage of Embedded Coder to translate the models into high-quality source code and executable files for prototyping and production is also explained.

Date: 05/11/2019

### CIRCULAR

A three-day workshop is organized by the Department of Electronics and Communication Engineering on the "Real-Time Applications of Embedded Systems" from 8-10 November 2019. Dr Mahantesh R. Choudhari, Founder & Director at MARC Edu-Tech Solutions, Bengaluru, will be the resource person. Interested students of 2<sup>nd</sup>, 3<sup>rd</sup> and 4<sup>th</sup> year are hereby informed to register your names with respective class advisor on or before 7 November 2019 and utilize this opportunity to enhance your knowledge and skill by this hands-on workshop.

### **Department of Electronics and Communication Engineering**

#### **Activity Report**

**Title:** Three days Workshop on “Real Time Applications of Embedded Systems”

**Resource Person:** Dr. Mahantesh R. Choudhari, Founder & Director at  
MARC Edu-Tech Solutions, Bengaluru

**Date:** 08/11/2019 to 10/11/2019

**Timings:** 9:00AM to 4.00PM

**Target Audience:** 2<sup>nd</sup>, 3<sup>rd</sup> & 4<sup>th</sup> year Students of ECE

**Profile of the Speaker:** Dr. Mahantesh R. Choudhari, Founder & Director at MARC Edu-Tech Solutions has over a decade experience in Technology, Academics, Training and Research. Mahantesh R. Choudhari earned his Bachelor's Degree from H.K.B.K College of Engineering in Electronics and Communication Engineering, Bengaluru. He holds Master Degree in Digital Signal Processing with distinction from Sri Bhagwan Mahaveer Jain College, Jain University, Bengaluru. Mr Choudhari has completed his Ph.d in Electronics and Communication (Image Processing). In the year 2009, Dr. Choudhari declined the government job as a first division assistant to continue his passion in Research and Development.

**Keynote address:** In his address, he enlightened the students about the real time applications of Embedded Systems. He briefed about embedded systems and the usage of modern tools for real time application. Embedded system comprises a single chip microcontroller such as ARM, Cortex and also FPGAs, microprocessors, ASICs and DSPs. In the present scenario the usage of embedded systems is widespread, but the software which is programmed into the microcontroller is capable of solving only a limited range of problems.

He briefed on the development of the control theory and computer technology, some intelligent controls which were used in embedded control systems. However, with the increase in the complexity of controlled objects, some new problems need to be considered in the real time

control system designs, such as, time-delay, uncertainty, unexpected faults, actuator saturation, and state constraints, that is recognize the need for technological change.

From the workshop students have gained knowledge in the field of embedded system in real time applications and able to carry out projects in the said domain.

Date: 12/08/2019

### CIRCULAR

A two-day workshop is organized by Electronics and Communication Students Association on the topic "Hands On Electronic Prototyping and Debugging" from 16-17 August 2019. Mr Edwin Thankachan, Founder, Circuitzpro, Kasaragod, an alumnus of the 2012 batch, will be the resource person. Interested students of 2<sup>nd</sup> and 3<sup>rd</sup> year are hereby informed to register your names with your respective class advisor on or before 14 August 2019 and utilize this opportunity to enhance your knowledge and skill by this hands-on workshop.

### **Activity Report**

**Title:** Two-day workshop on “Hands-On Electronic Prototyping and Debugging”

**Resource Person:** Mr. Edwin Thankachan, Founder, Circuitzpro, Kasaragod

**Date(s):** 16/08/2019 and 17/08/2019

**Timings:** 9:00 A.M to 4:30 P.M

**Venue:** Analog and Digital Electronics Lab

**Target Audience:** 2<sup>nd</sup> and 3<sup>rd</sup> year Students of ECE

**Profile of the Speaker:** Mr. Edwin Thankachan is the founder of circuitzpro –an Electronics start up company located at Kasaragod, Kerala. Mr. Edwin was graduated from Mangalore Institute of Technology and Engineering, Moodabidri in Electronics and Communication Engineering stream. His areas of interest are C programming, Arduino and Microcontrollers, Python programming, analog circuit designing, home automation, IoT (ESP8266) etc. He has worked in UBICO solutions at Nileswar, Kasargod as circuit designer and debugger for a year. He has undergone Bosch rexroth training for 3 months based on various PLC implementations. He was also associated with Gulf media Technologies at Kannur, Kerala as an electronic product developer.

**Keynotes address:** Mr. Edwin handled two days hands on session on Electronic prototyping and debugging for 2<sup>nd</sup> and 3<sup>rd</sup> year students. In the workshop, he emphasized basically on fundamentals electronic components and their applications. He explained the basic semiconductor devices such as diode, transistors, relay, transformer and their operation. The main aim of the program was to provide the practical knowledge to the students and to explain and demonstrate the working principle of some of the components used in the electronic circuit designing.

(A Unit of Rajalaxmi Education Trust)

Badaga Mijar, Moodbidri-574225

Two-day workshop on “Hands-On Electronic Prototyping and Debugging” by Mr. Edwin Thankachan

### 1<sup>st</sup> Day Morning session:

He explained about the basic principles of AC voltage source and the process of converting AC to DC. He explained the principles of regulated power supply and the design of regulated power supply using zener voltage regulator. Students actively involved the session and gained the knowledge.

Hands on session in Two-day workshop by Mr. Edwin Thankachan

## Mangalore Institute of Technology and Engineering

(An ISO 9001:2015 Certified Institution)

(A Unit of Rajalaxmi Education Trust)

Badaga Mijar, Moodbidri-574225

---

### **1<sup>st</sup> Day Afternoon session:**

In the afternoon session, he explained the concept of operational amplifier using IC 741. The design of op-amp based linear amplifiers and other non linear applications of op amp were discussed. The working principles of a relay switch, 555 timer IC, LDR, IR transmitter and receiver, object sensors, PIR sensor, temperature sensor, fire sensor, current sensor, ultrasonic sensor, voltage divider circuit were also discussed.

Demonstrating the working of the individual components to the students

### **2<sup>nd</sup> Day Morning session:**

In the 2<sup>nd</sup> day morning session, he explained how to debug basic circuits, identifying faults and repairing the circuits. He also explained about the principle of operation of multimeter and its usage. Students were involved in building minor hobby circuits.

### **2<sup>nd</sup> Day Afternoon session:**

In the afternoon session, students were involved in simulating circuits with Proteus software. Some amplifiers and transistor oscillator circuits were simulated and the output was validated. On final day, participation certificate is issued to all participating students.

### Report on Two Day Innovation Bootcamp on IoT Applied to various Domains

Date: 15<sup>th</sup> and 16<sup>th</sup> November, 2019

In Association with: Skyfi Education Labs Pvt. Ltd., Bangalore.

Resource Person: Mr. Jagmohan Meher, Engineer at Skyfi Labs.

#### Course Outcomes:

- Knowledge and understanding of fundamental IOT paradigms, design, construction and programming, both with respect to IoT software and hardware.
- Hands on experience on IOT and an opportunity to develop live projects.
- Industry ready in IoT after the workshop.

#### Course Contents:

- IoT - Concepts & Applications
- Arduino Architecture & Programming
- Sensors
- Actuators
- Calibration of Sensors
- Virtuino App development (smart irrigation system)
- How Internet Works
- Design of a Communication Network
- Wireless Communication Devices
- ESP-8266 – Introduction
- Powering up ESP-8266

#### Course Structure:

##### 15<sup>th</sup> November (Day-1)

1. Introductory lecture on “internet of things- concepts and applications”
2. Introduction to sensors and actuators for iot systems, interfacing circuits, IoT hardware
3. Interfacing sensors and actuators with IoT hardware
4. Calibration of sensors and their necessity

Co ordinator: Dr Vignesh Nayak

## 16<sup>th</sup> November (Day-2)

5 Assembly and integration of various IoT components

6. Basics of communication & coding

7. Testing of the IoT device and trouble-shooting

8. Demonstration the functionality of the developed IoT module

**POs Mapped:** PO1, PO5, PO7, PO9, PO10, PO12

### Day-1 Morning Session:

The workshop began with an Inauguration program by Mr. Jagmohan Meher (Skyfi Labs), Dr. C. R. Rajashekhar (H.O.D., Mechanical Engineering Department), Prof. Lokesha M. and Prof. Neelakantha V Londhe. The program was headed by the faculty coordinator of the workshop Dr. Vignesh Nayak Ullal (Senior Assistant Professor, Department of Mechanical Engineering). The students had registered for the bootcamp two week prior to the scheduled dates of the bootcamp.

The first session started with an introduction to IoT, its concepts, how internet is connected to the real world. Services that use IoT, applications. Traffic management through the use of IoT. Devices that are transformed to smart devices owing to internet connectivity coupled with minimization of waste and optimization of operational time due to the interconnectivity of sensors, actuators with computer aided processor. IoT devices that aid in keeping the health of a person in-check. Use of IoT in blood pressure monitoring, health and fitness. IoT solutions applied to enhance mobility experience by rendering modern vehicles to be smart to respond to various situations encountered during transit. Introduction to cloud technology. Building blocks of IoT and the IoT value chain. Online registration to access Skyfi labs course content commenced after the introduction lecture.

Fig.1 Professor Lokesh emphasising on the importance of IoT

Fig.2 Explanation of IoT concepts and applications by Mr. Jagmohan Meher (Engineer, Skyfi labs)

#### Day-1 Afternoon Session:

The second session started with distribution of customised IoT kits to the students. The topics opted by students along with the details of hardware supplied by the company to enable building of a functional model are presented in Table 1. Online customised course content access was provided to the students with respect to the project topic opted by them. Questions were posed to the students online on Skyfi Labs website after each educational video. These questions were related to the contents displayed and conveyed in the video lecture. The students cannot progress to the succeeding video modules without answering correctly to all the questions posted for the previous module. These activities continued till the end of third session.

**Table1: Particulars of components involved in developing IoT devices during the bootcamp**

Project Topics	Automatic street lighting system	Smart irrigation system	Smart water monitoring	Automatic railway crossing	Solar & smart energy system	Automatic solar tracker
Hardware	Arduino Uno					
	ESP-8266 Wi-Fi module			DC motors	21V solar panel	DC motors
	LDR sensors	Soil moisture sensor	Water flow sensor	Motor clamps	Digital sensors	Motor driver

USB TO UART cable					
Bulb holders	Water pump	Barrel connector	Digital IR sensors	Mobile charger	LDR sensor
Connecting wires					
Relay driver modules	Wooden plank	Breadboard	Gears		Solar panel model
Wooden chassis					Elbow joints
Working tools					

Fig.3 Smart irrigation system IoT kit-Day 1

#### Day-2 Morning Session:

During the fourth (16/11/2019) the students began assembly of the various IoT components provided to them. Various files that were required for the communication between the components, and with the cloud platform were downloaded by them. Following the assembly, the module developed by the teams were tested for their functionalities. Trouble shooting of the various devices were performed. Data recording was enabled and the collected information was communicated to the online cloud platform. Following the real-time synthesis of data, analysis of the results was carried out with the aid of real-time data plots to arrive at conclusions on usage and optimization.

Fig.4 Components of solar and smart energy system IoT kit assembled by students for hands-on training- Day 2

#### **Day-2 Afternoon Session:**

On successful completion of the above-mentioned activities, the teams demonstrated and explained the working of their IoT device to the invigilators.

With this the workshop came to an end. An online feedback report was given by students. The completion of this workshop showed the interest of students towards this new domain that they haven't studied about. Photographs of the event has been shown below in the report. Students received their certificate by completing the online feedback done by the company.

### Report for Workshop on IoT Applied to Sustainable Technologies

**Date:** 2<sup>nd</sup> and 3<sup>rd</sup> November, 2019

**Industry Partner:** FluxGen Technologies, Bangalore.

**Resource Persons:** Mr. Shreyas K, Mr. Adithya

**Workshop Coordinator:** Akshay S Bhat

#### Course Outcomes:

- Knowledge and understanding of fundamental IOT paradigms, design, construction and programming, both with respect to IoT software and hardware.
- Hands on experience on IOT and an opportunity to develop live projects.
- Industry ready in IoT after the workshop.

#### Course Contents:

- Introduction
- Case studies- IoT Systems deployed by FluxGen
- Sensors and Actuators
- Interfacing Hardware
- Industry 4.0
- Case studies
- Installations
- Communication Protocols
- Wireless communication
- OSI Layer of IoT
- IoT Platforms
- Mobile application development

## **Course Structure:**

### **2<sup>nd</sup> November (Day-1)**

1. Introductory lecture on “Internet of Things Applied to Sustainable Technologies”
2. Introduction to Sensors and Actuators for IoT systems, Interfacing circuits, IoT Hardware
3. Interfacing Sensors and Actuators with IoT Hardware
4. Industry 4.0, Case study of Industry 4.0, IoT Protocols

### **3<sup>rd</sup> November (Day-2)**

5. Basic Communication Protocol & Wireless Communication
6. Integrating IoT hardware with Cloud platforms
7. Android app development & Integration with IoT hardware
8. Demo of a working IoT system

**POs Mapped:** PO1, PO5, PO7, PO9, PO10, PO12

#### **Day-1 Morning Session:**

The workshop began by welcoming our Resource Persons Mr. Shreyas. K (FluxGen Technologies, Bengaluru), Mr. Adithya (FluxGen Technologies, Bengaluru) along with Dean Academics (MITE, Moodabidri), HOD of Mechanical department (MITE, Moodabidri). The program was conducted by Energy Club, Department of Mechanical Engineering. The club is headed by Mr. Akshay S Bhat (Assistant Professor, Department of Mechanical Engineering) also the faculty coordinator of the workshop. Under the guidance of HOD- Mechanical department, Students were asked to register for the workshop one week in advance.

The first session started with an Introduction on IOT, How internet is connected to real life things. IOT using services, Applications of IOT. IOT facts- Driver less autonomous cars, Internet connected smart devices, IOT devices in medical field, Application of Internet of things in Automobile sector, Introduction on Cloud Technology, IOT building blocks, IOT value chain.

Fig.3 Talk attended by Faculty & Students of Department of Mechanical Engineering, MITE

#### **Day-1 Afternoon Session:**

The second session started with prototyping. Prototype making is very important journey of manufacturing and market. It is very important to take the product to the next level. Case studies of solar PV solar micro grid, Smart monitoring system. Case studies of IOT in renewable Energy production.

Case studies of solar powered water management using EWM. Solar powered wireless monitoring node. Water flow and level monitoring system. Discussion on Sensors and Actuators. Brief introduction on sensors and actuators. How IOT is different from IT.

Working and application of various types of sensors. Eg. Motion sensors - Accelerometer and Gyroscope, Anemometer - to detect wind speed, SHT7x - Humidity and temperature sensor Etc. Brief introduction on Actuators- Piezoelectric actuators, Hydraulic cylinders, About relay and comb drive.

Fig.4 Theory Session on Introduction to IoT applied to sustainable technologies.

Third and fourth sessions were hands-on training. The session started by downloading various files, installing files, Distributing Flux Gen kits, Explaining safety measures to handle the kit. Introduction to microprocessors, microcontroller, protocols and cloud. Cloud Analysis, WSN node, explaining its components about actuators and sensors, Potentiometer (POT) - variable resistor, LM35 - temperature sensor, Some Software terms, LED Blink program for Digital input.

Fig.5 IoT Kits Provided to students for hands-on training- Day 1

### **Day-2 Morning Session:**

The remaining sessions conducted were also hands-on training. The students learnt about Analog output- 1. Explaining the program 2. Downloading the code, uploading to the kit, 3. Explained about Mario tone code. Analog Input- Temperature measuring program. Explained about data sheets, how to analyze it, Explained temperature measuring codes. Relay program- Explained Relay mechanism. Incubator Program- Explained the codes, performed the experiment. LED brightness control using potentiometer- Explained the component of kit and conducted the experiment. LED brightness control using LDR- Explained about code used in experiment and Conducted the experiment. Pulse counting- Explained the code, Conducted the experiment. LED and relay control using serial communication- Explained about codes, Conducted experiment.

Fig.6 Student batches working on IoT Kits.

### **Day-2 Afternoon Session:**

LED and relay control using Bluetooth - Connecting mobile Bluetooth to the device, Explained the program code, Performing experiment using mobile application. Cloud technology- Creating dashboards, connecting mobile application to the Google Assistant, Setting up Google Assistant, Connecting system to the kit, Explained the codes, Upload the code and perform the experiment. Demo of smart home system.

Fig.7 Connecting various devices online through Computer and mobile using IoT

With this the workshop came to an end. An online feedback report was given by students. The completion of this workshop showed the interest of students towards this new domain that they haven't studied about. Photographs of the event have been included in the report. Students received their certificate by completing the online feedback done by the company.

### WORKSHOP CONDUCTED BY SAE COLLEIGATE CLUB OF MITE

Resource Persons: Mr. Girish Babu, Mr. Harish Shenoy

Date: 11<sup>th</sup> and 12<sup>th</sup> October 2019

#### Course Outcomes:

- Knowledge and understanding of fundamental of Automotive Engineering, Engineering drawing and GD&T.
- Hands on experience of software's and opportunity to develop projects.
- Industry ready after the workshop.

#### Course Content:

- Introduction
- Case studies- Engineering drawing
- Reading Engineering drawing
- Importance of GD&T
- Fundamentals of GD&T
- Implementation of GD&T
- Team Management
- Lotus suspension analysis
- Ansys
- DS Solidworks

#### Course Structure:

##### 11<sup>th</sup> October (Day-1)

1. Introductory lecture on "Engineering drawing"
2. How to read Engineering drawing
3. Introductory lecture on "GD&T"
4. Discussion on GD&T
5. Implementation on GD&T
6. Role of GD&T in improvement of manufacturing industry

CO. ORDINATOR : Mr. Rahul.S

## 12<sup>th</sup> October (Day-2)

1. Introduction on Team Management
2. Analysis on Lotus suspension
3. Analysis on Ansys
4. Designing on Solidworks

### POs Mapped: PO1, PO6, PO8 & PO12

The workshop began with an Inauguration program of SAE Collegiate of MITE by Chief Guests Mr. Girish Babu (Founder and CEO GUTS Mechademy, Bangalore) with HoD of Mechanical department. The program was head by the faculty coordinator of the club and coordinator of the workshop Mr. Rahul Sanjeev (Assistant Professor, Department of Mechanical Engineering). Students were asked to register for the workshop one week in advance.

The first session started with an Introduction of Engineering drawing, how to read an engineering drawing, Application of engineering drawing in industry application. The importance of engineering drawing when it comes to the manufacturing industry. How to mass produce any equipment with minimum defects. In this session students were first taught about the basis of how to measure using Vernier calliper and micro meter screw gauge. How to find the weight of any object without using a weigh scale. Explained how companies are divided into four tiers i.e.

- Oems. (Original equipment manufacturers)
- Tier 1 (Assembling of the all the sub-assemblies)
- Tier 2 (Making of all the parts required according to the design)
- Tier 3 (acquiring of raw materials)

The second session was about GD&T (Geometric Drawing & Tolerance). Case studies on the engineering drawing and GD&T and application of six sigma lean manufacturing using GD&T. in this session people student were taught about how to tolerancing and how GD&T have impacted the manufacturing industry. Different types of standards that are used in GD&T. Using a Toyota Fortuner reverse fork, he helped students to understand the engineering drawing and how to implement the design.

Third session was about Team management, Introduction of suspensions and hands on sessions of lotus suspension analysis. In this student were taught about fundamentals of how to manage any team. Structing a team and experiences of older team members was shared regarding the same. The students were then taught basics of suspension and different parameters of suspension were taught. Then students were taught lotus suspension analysis software in which they were taught how to use the software and get different outputs. Hands on session of Ansys software was given and students on how to do analysis of simple bar using ANSYS.

Fourth session was a webinar on Solidworks. In this student were taught how to design a prism, bar and how to make joint for mounting suspension on any car. In this student were taught how create drawings after finishing a design on Solidworks.

With this the workshop came to an end. An online feedback report was given to students. The completion of this workshop showed the interest of students towards this domain. Photographs of the event have been shown below in the report. Students received their certificate by completing the online feedback done by the company.

**II) Glimpse of Workshop:**

The Department of Mechanical Engineering in association with MECHMITES organized Two Day Workshop on "MATLAB based Mechanical Engineering Applications " for third year Mechanical Engineering students on 3<sup>rd</sup> and 4<sup>th</sup> of October 2019. The Workshop was inaugurated by the Dean Academics Dr. Divakara Shetty. He appreciated the students for taking part in the workshop. Dr. C R Rajashekhar HOD, Mechanical Engineering highlighted the importance of MATLAB usage in Engineering sector. The Mechanical, Aeronautical dept. faculties and Coordinator Dr. Lokesh M and Mr. Shivaramu H T, MECHMITE Coordinator were present.

**Dr. Divakara Shetty S, Dean Academics, addressing during Workshop Inauguration**

**Resource persons interaction with HOD**

**CO-ordinator: Dr Lokesh**

**MANGALORE INSTITUTE OF TECHNOLOGY & ENGINEERING**  
**DEPARTMENT OF MECHANICAL ENGINEERING**

**Session1:** Dr. M MNadakatti engaged on "Introduction to MATLAB"

**Session2:** Dr. Arun Kumar P engaged on "Reverse Engineering"

**Session 3:**Dr. Arun Kumar P spoke on "3D printing and Scanner " & hands on session

**Session 4:**Dr. M MNadakatti spoke on "Application build by MATLAB"& hands on session

Dr. M MNadakatti, Professor, Department of Mechanical Engineering, KL's GIT, Belgaum taught on introduction , importance, applications of MATLAB. He explained step by step procedure of using MATLAB and taught students to create surface plots and matrix solve. Students experienced and build the simple applications.

Dr. Arun Kumar P, Professor, Department of Mechanical Engineering, KL's GIT, Belgaum explain about the need of reverse engineering and how it is implementing in manufacturing sectors. He also explained the need of 3D printing, prototyping, how to set machine, design, production parameters set for the RP manufacturing. He thought the scanning of objects using 3D printing software.

**MANGALORE INSTITUTE OF TECHNOLOGY & ENGINEERING**  
**DEPARTMENT OF MECHANICAL ENGINEERING**

The students were happy after learning and using MATLAB, Rapid prototyping and 3D scanner software. The students have gained knowledge, got some inputs and ideas to implement these software in their project work.

Certificate issued to Participants

Participants with resource persons & coordinators

Venue: SME3

Date: 3<sup>rd</sup> and 4<sup>th</sup> of Oct.2019

### III) Course content

#### ABOUT MATLAB:

MATLAB is a high-performance language for technical computing. It integrates computation, visualization, and programming in an easy-touse environment where problems and solutions are expressed in familiar mathematical notation. Typical uses include: Application development, including Graphical User Interface building. It allows matrix manipulations; plotting of functions and data; implementation of algorithms; creation of user interfaces; interfacing with programs written in other languages, including C, C++, Java, and FORTRAN; analyze data; develop algorithms; and create models and applications. It has numerous built-in commands and math functions that help you in mathematical calculations, generating plots, and performing numerical methods. For mechanical engineering students, it will be an excellent tool during final year projects. They can design, develop, simulate their projects using MATLAB and test the prototypes for the results. Suitable graphs both 2-D and 3-D could be developed. Many Vibration based applications could be developed and analyzed by coupling the MATLAB with DAQ systems (Data Acquisition System). Our department has DAQ system from NI.

**MANGALORE INSTITUTE OF TECHNOLOGY & ENGINEERING**  
**DEPARTMENT OF MECHANICAL ENGINEERING**

**Expenditure:**

Honorarium to resource persons and their expenditure	= 10,000
Workshop organization expenses	= 4,000

**VII) Recourse persons CV**

**Faculty profile of Dr. Arunkumar P**

**1. Brief profile**

Dr. Arunkumar P is a faculty in the Department of Mechanical Engineering at K.L.S. Gogte Institute of Technology Belagavi, Karnataka, India and has been in the teaching profession from past 12 years. He holds a bachelor's degree in Industrial & Production Engineering and M.Tech in Product Design & Manufacturing and a Ph.D. in the field of CAPP & feature extraction. He secured Gold Medal from Visvesvaraya Technological University for obtaining First rank in M.Tech - Product Design & Manufacturing. As part of Masters study he had undergone training at CMTI, Bangalore. He has attended many conferences and workshops and has published papers in many conferences and International Journals. He is a life member of ISTE. His fields of interest include CAPP, Feature extraction, Rapid prototyping and Reverse engineering. Presently he is pursuing his research work in the field of Rapid prototyping and Reverse engineering.

**Achievements and awards :**Received **GOLD MEDAL** from Visvesvaraya Technological University (VTU) for securing **FIRST RANK** to University for M.Tech (Product Design & Manufacturing) in 2004.

Complete address including floor number, staff room number, building: Dr. Arunkumar P, Associate Professor, Dept of Mechanical Engineering, KLS Gogte Institute of technology, Jnana Ganga, Udyambag, Belagavi 590008. Phone Number (Department): 0831-2498500, Skype Id, email id [akp@git.edu](mailto:akp@git.edu), Link for faculty home page: [akp@git.edu](http://akp@git.edu),

**Faculty profile of Dr.M.M.Nadakatti**

Dr.M.M.Nadakatti Academic Profile CAREER STATEMENT A well-presented, self-motivated and confident Post-Doctoral Research Fellow in Mechanical Engineering having extensive knowledge of teaching various mechanical engineering theory and practical subjects apart from research and publications in the areas of Maintenance Engineering, Condition Monitoring, Tribology / Bearing Failure, Lubrication, etc. I successfully completed for 1-year Post-Doctoral Fellowship in the Division of Operations and Maintenance at LTU, Sweden with Prof.UdayKumar as my Supervisor during 2012-13. During my stay at LTU, gained more knowledge in the areas of Condition Monitoring, Asset Management, Tribology, etc. Because of my various work assignments both in

### "Applications of CAD Tools in the Field of Mechatronics"

**Mr. Vinod Kumar K**, Centre Head, CADD Centre, Moodabidre delivered the talk that focused on applications of design and simulation tools such as Ansys, Catia, SolidWorks, SolidEdge, NXCAD, AutoCaD NXCAM held on **19/10/2019** in class room **L-301**. The students were informed about the future trends in the field of FEA in automotive and manufacturing sector. The students were also provided with in depth knowledge about different tools available for electrical and mechanical drawings. **1 faculty and 55 students** were participated in the technical talk.

Session on "Applications of CAD Tools in the field of Mechatronics" by Mr. Vinod Kumar K

## Department of Computer Science & Engineering

### Report on the Technical Talk

#### Title: Workshop on Cyber Security

**Resource Person(s)/ Organization(s):** Mr.Navaneeth Krishnan, Cyber Security Analyst and Certified Ethical Hacker, Tata Consultancy Services, Chennai.

#### Experience

2018-06 - present **Tata Consultancy Services**

*Cyber Security Analyst*

Working as a security analyst and penetration tester for one of the largest retail pharmacy and health store chain across the U.S. and Europe.

#### Education

- 2011 - 2015 **MANGALORE INSTITUTE OF TECHNOLOGY & ENGINEERING, Moodbidri**

**BE in COMPUTER SCIENCE & ENGINEERING**

- 2016 - 2018 **ER & DCI INSTITUTE OF TECHNOLOGY, Thiruvananthapuram**

**M.tech in CYBER FORENSICS AND INFORMATION SECURITY**

Worked on live projects from Centre for Development of Advanced Computing (C-DAC (T)), Thiruvananthapuram

**Projects :**

- *Detection of IOT Based DDOS Attack*
- *Blockchain Based Security Framework for IoT Implementations*

#### Conferences

- 2017-03 Nullcon - International Security Conference, Goa
- 2017-09 C0c0nX - Hacking And Cyber Security Briefing, Kochi
- 2017-12 National Cyber Defence Summit (VII Edition), Bits Pilani- Goa,
- 2018-03 Nullcon - International Security Conference, Goa
- 2018-04 Kerala Police Cyberdome CODSEC - Policing the Future, Trivandrum

#### Publications

- 2017-04 **Challenges and Issues in Big Data Era- A Survey** – publication description International Journal of Engineering Research in Computer Science and Engineering
- 2018-07 **Blockchain Based Security Framework for IoT Implementations** - IEEE | International CET Conference on Control, Communication, and Computing (IC4)

#### Certification

- 2018-07 Certified Ethical Hacker (C|EH v10)
- 2018-10 Nessus Certificate of Proficiency

---

**Duration: One Day.**

**Target Audience: Computer Science Students (3rd Year)**

**Brief about the event:***(Overview of the event, highlighting the need and what it would cater to the target audience.)*

A One Day Workshop by Mr.Navaneeth Krishnan, Cyber Security Analyst and Certified Ethical Hacker, Tata Consultancy Services, Chennai, has ignited the students mind on the issues of cyber security and its impact on internet based transactions. The popularity of internet comes along with negative effect of insecurity to internet based transactions, which poses the need of knowledge on cyber security issues and possible solutions. The basic knowledge of cyber security would help the students to keep their internet based transactions safe and encourage the students to develop new algorithms to provide more security for internet based applications.

**Keynotes from the address:** *(Extracts from the talk of the Resource Person. Also a note on guests and their addresses to the audience if ever the event had a formal function)*

Mr.Navaneeth Krishnan, Cyber Security Analyst and Certified Ethical Hacker, Tata Consultancy Services, Chennai, delivered a one day workshop on “**Cyber Security**” for 3<sup>rd</sup> Year CSE Students. The workshop was conducted in two sessions. In the morning session, the speaker addressed about basics of cyber security and issues related to internet security. In the afternoon Session, the speaker showcased through practical some of the security flaws in existing internet, data breach issues and possible ethical hacking for security issues, data breach.

### Report on the Technical Talk

**Title:** Workshop on LINUX for Computer Science Engineers

**Resource Person(s)/ Organization(s):** Mr. Manmohan K, Asst.Professor-Selection Grade , CS&Engg. dept., MIT, Manipal.

**Qualification:** B.E., M.Tech(CS).

#### **CURRENT ACADEMIC ROLE & RESPONSIBILITIES**

- Assistant Professor - Selection Grade, Department of Computer Science & Engineering.
- Subject coordinator for Computer Communication and Networks.

#### **AREAS OF INTEREST**

- Computer Networks and Security, Linux & Open Source Technologies

*(Name and designation along with a brief profile of the resource person)*

**Date(s):** 12 March 2019

**Duration:** One Day.

**Target Audience:** Computer Science Students (2<sup>nd</sup> Year)

**Brief about the event:***(Overview of the event, highlighting the need and what it would cater to the target audience.)*

A One Day Workshop by Mr. Manmohan K, Asst.Professor-Selection Grade , CS&Engg. dept., MIT, Manipal, has enlighten the students on basics of Linux operating system and its use for different applications for computer science students. The knowledge on Linux operating system has been a foundation for computer science students to get into the programming domain. The

knowledge on Linux operating system and its features for programming would help the computer science students to explore more on programming domain with more practicality of understanding.

**Keynotes from the address:** *(Extracts from the talk of the Resource Person. Also a note on guests and their addresses to the audience if ever the event had a formal function)*

**Mr. Manmohan K, Asst.Professor-Selection Grade , CS&Engg. dept., MIT, Manipal,,** delivered a one day workshop on “Linux for Computer Science Engineers” for 2<sup>nd</sup> Year CSE Students. The workshop was conducted in two sessions. In the morning session, the speaker addressed about basics of Linux operating system and its features, mainly on GNU debugger “gdb” for programming and debugging features. In the afternoon Session, the speaker conducted practical hands on session on usage of gdb for programming using example programs. In the end, speaker showcased the other features of Linux operating system for day to day applications.

**Duration: One Day.**

**Target Audience: Computer Science Students (3rd Year)**

**Brief about the event:***(Overview of the event, highlighting the need and what it would cater to the target audience.)*

A One Day Workshop by Dr.Venugopal P S, Associate Professor, Dept of CSE, NMAMIT, Nitte has enlighten the students on the fundamentals of image processing. The wide spread use of image processing for different applications poses the need of image processing knowledge for proposing novel image processing solutions. The acquired knowledge on image processing would help the students to resolve the challenges of image processing domain and take up the image processing related projects.

**Keynotes from the address:** *(Extracts from the talk of the Resource Person. Also a note on guests and their addresses to the audience if ever the event had a formal function)*

Dr.Venugopal P S, Associate Professor, Dept of CSE, NMAMIT, Nitte, delivered a one day workshop on “Cyber Security” for 3<sup>rd</sup> Year CSE Students. The workshop was conducted in two sessions. In the morning session, the speaker addressed about basics of image processing and scilab tool. In the afternoon Session, the speaker conducted practical hands on session on different image processing operations using scilab tool and discussed about the possible forthcoming projects on image processing.

### Department of Electronics and Communication Engineering

#### Activity Report

<b>Title</b>	<b>: Technical talk on “Microcontrollers, Open-Source Tools &amp; Embedded Application”</b>
<b>Resource Person</b>	<b>: Mr. Mohammed Sadiq, Director, Tech-Graylogix, Mangalore.</b>
<b>Date</b>	<b>: 15/11/2018</b>
<b>Time</b>	<b>: 11.00 AM to 04.00 PM</b>
<b>Target Audience</b>	<b>: 3<sup>rd</sup> Year Students of ECE</b>

#### **Profile of the Speaker:**

Mr. Mohammed Sadiq is working as a Director of Tech-Graylogix Mangalore. Mr. Mohammed Sadiq is having 12 years of experience in design and development of embedded electronics applications. Tech-Graylogix provides hardware and embedded software development, customized product design, sales/marketing of embedded products/services, web designing and server management.

#### **Keynote address:**

In his address, Mr. Sadiq spoke on the aspects of selecting microcontroller depending upon the need, requirements, ambiance, number of I/O peripherals, power management and speed of process commands. He briefed on the functionality of vital electronic components, importance of regulated power supply and voltage comparators in sensor design, relay switching mechanism from heavy loads. He also inspired & motivated the students to make use of Microcontrollers in their academic/innovative projects.

He started the session by explaining the history of Microcontrollers starting from 8 bit and 16 bit Microcontroller, their memory organisation, parallel and serial I/Os, Timers and Signal generators, ADC and DAC devices. He stated that 16-bit microcontroller has greater precision and higher performance as compared to 8-bit controller. It can automatically operate on two 16 bit numbers. Examples of 16-bit microcontroller are 16-bit MCUs such as extended

### **TWO DAY WORKSHOP CONDUCTED BY AEROTRIXSKYFI LABS BENGALURU ON: CNC MACHINE USING ARDUINO**

**Date:** 12/04/19 &13/04/19

**Venue:** PG001

**Audience:** Mechanical Engineering Students

**Guests:**Mr.Nikhil Shankar R, Tech Manager at Skyfi Labs

**Organized by:** Mr. Yajnesha P Shettigar& Mr. Vijaykumar Meti

#### **Course Highlights:**

Design and build a CNC machine using Stepper motors ,Arduino control board ,wooden supports etc. programming of CNC to do the drilling and milling operations. This is a bridge course for mechanical engineers to enter into the field of manufacturing Industries.

#### **Course Structure**

##### **Day 1**

**Session 0:** SMS registration: 10min

**Session 1:** Theory – 3 hrs Lecture by Trainer.

**Session 2:** -Design and Fabrication 1hrs

**Session 3:** Fabrication - 4hrs.

##### **Day 2**

**Session 1:** Theory – 3 hrs Lecture by Trainer.

**Session 2:** Fabrication: 5 hrs.

#### **Topics Covered**

- Basics of CNC coding
- Control of Motor Drives
- Motion controls at different axis
- Drilling and Milling operations

**POs Mapped:**PO1,PO5,P06,PO7,PO9,PO10,PO11,PO12

This is a brief report of Two day workshop on “CNC Machine using Arduino” conducted on 12/04/19 & 13/04/19. Mr. Yajnesha P Shettigar welcomed the speaker of the session, Mr. Nikhil Shankar R, Tech Manager at Skyfi Labs.

The workshop began with an inauguration program where the coordinators of AeroTriXskyfi Labs were present. The program was head by the faculty coordinator Mr. Yajnesha P Shettigar, Assistant Professor, Department of Mechanical Engineering along with Mr. Vijaykumar Meti, coordinator MECHMITE. Students were then asked to register using their Cellphones.

In this workshop students learnt about building of CNC Milling machine. The programming of stepper motors is done using Arduino. Students did coding of CNC machine with the support of trainer. The in depth knowledge about the CNC is covered in this workshop, which is most required aspect for the current competitive era for all mechanical engineer. The prototype model is built by students was successfully executed the task link drilling and milling etc.

**Mr. NikhilShankar R delivering the theoretical session**

### WORKSHOP CONDUCTED BY FLUXGEN TECHNOLOGIES

**Conducted by:** Mr. Ganesh Shankar, Mr. JagatheeswaranSenthilvelan, Mr. Dinesh.

FluxGen Technologies, Bangalore.

**Date:** 8<sup>th</sup> and 9<sup>th</sup> October, 2018

#### Course Outcomes:

- Knowledge and understanding of fundamental IOT paradigms, design, construction and programming, both with respect to IoT software and hardware.
- Hands on experience on IOT and an opportunity to develop live projects.
- Industry ready in IoT after the workshop.

#### Course Contents:

- Introduction
- Case studies- IoT Systems deployed by FluxGen
- Sensors and Actuators
- Interfacing Hardware
- Industry 4.0
- Case studies
- Installations
- Communication Protocols
- Wireless communication
- OSI Layer of IoT
- IoT Platforms
- Mobile application development

#### Course Structure:

##### 8<sup>th</sup> October (Day-1)

1. Introductory lecture on “Internet of Things Applied to Sustainable Technologies”
2. Introduction to Sensors and Actuators for IoT systems, Interfacing circuits, IoT Hardware
3. Interfacing Sensors and Actuators with IoT Hardware
4. Industry 4.0, Case study of Industry 4.0, IoT Protocols

##### 9<sup>th</sup> October (Day-2)

## Mangalore Institute of Technology and Engineering

(An ISO 9001:2015 Certified Institution & Accredited by NAAC)

(Affiliated to Visvesvaraya Technological University, Belagavi)

DEPARTMENT OF MECHANICAL ENGINEERING

(Accredited by NBA, New Delhi)

5. Basic Communication Protocol & Wireless Communication
6. Integrating IoT hardware with Cloud platforms
7. Android app development & Integration with IoT hardware
8. Demo of a working IoT system

**POs Mapped:** PO1, PO5, PO7, PO9, PO10, PO12

The workshop began with an Inauguration program of Energy Club by Chief Guests Mr. Ganesh Shankar (Founder and CEO, FluxGen Technologies Bengaluru), Mr. Jagatheeswaran Senthilvelan (Head of Innovation and Technology, FluxGen Technologies Bengaluru) were present along with Principal, HOD of Mechanical department. The program was head by the faculty coordinator of the workshop and coordinator of Energy Club Mr. Akshay S Bhat (Assistant Professor, Department of Mechanical Engineering). Students were asked to register for the workshop one week in advance.

The first session started with an Introduction on IOT, How internet is connected to real life things. IOT using services, Applications of IOT. IOT facts- Driver less autonomous cars, Internet connected smart devices, IOT devices in medical field, Application of Internet of things in Automobile sector. Introduction on Cloud Technology. IOT building blocks. IOT value chain. The second session started with prototyping. Prototype making is very important journey of manufacturing and market. It is very important to take the product to the next level. Case studies of solar PV solar micro grid, Smart monitoring system. Case studies of IOT in renewable Energy production. Case studies of solar powered water management using EWM. Solar powered wireless monitoring node. Water flow and level monitoring system. Discussion on Sensors and Actuators. Brief introduction on sensors and actuators. How IOT is different from IT. Working and application of various types of sensors. Eg. Motion sensors - Accelerometer and Gyroscope, Anemometer - to detect wind speed, SHT7x - Humidity and temperature sensor Etc. Brief introduction on Actuators- Piezoelectric actuators, Hydraulic cylinders, About relay and comb drive.

## **Mangalore Institute of Technology and Engineering**

**(Affiliated to Visvesvaraya Technological University, Belagavi)**

**BadagaMijar, Moodbidri-574225**

**DEPARTMENT OF MECHANICAL ENGINEERING**

**(Accredited by NBA, New Delhi)**

Third and fourth sessions were hands-on training By JagatheeswaranSenthivelan. The session started by downloading various files, installing files, Distributing Flux Gen kits, Explaining safety measures to handle the kit. Introduction to microprocessors, microcontroller, protocols and cloud. Cloud Analysis, WSN node, explaining its components about actuators and sensors, Potentiometer (POT) - variable resistor, LM35 - temperature sensor, Some Software terms, LED Blink program for Digital input. The remaining sessions conducted were also hands-on training. The students learnt about Analog output- 1. Explaining the program 2. Downloading the code, uploading to the kit, 3. Explained about Mario tone code. Analog Input- Temperature measuring program. Explained about data sheets, how to analyze it, Explained temperature measuring codes. Relay program- Explained Relay mechanism. Incubator Program- Explained the codes, performed the experiment. LED brightness control using potentiometer- Explained the component of kit and conducted the experiment. LED brightness control using LDR- Explained about code used in experiment and Conducted the experiment. Pulse counting- Explained the code, Conducted the experiment. LED and relay control using serial communication- Explained about codes, Conducted experiment.

LED and relay control using Bluetooth - Connecting mobile Bluetooth to the device, Explained the program code, Performing experiment using mobile application. Cloud technology- Creating dashboards, connecting mobile application to the Google Assistant, Setting up Google Assistant, Connecting system to the kit, Explained the codes, Upload the code and perform the experiment. Demo of smart home system.

With this the workshop came to an end. An online feedback report was given by students. The completion of this workshop showed the interest of students towards this new domain that they haven't studied about. Photographs of the event has been shown below in the report. Students received their certificate by completing the online feedback done by the company.

# MANGALORE INSTITUTE OF TECHNOLOGY & ENGINEERING

Department of Mechanical Engineering

Name of the visiting Company: Mr. Ganesh Shankar, Mr. Jagatheeswaran Senthilvelan: FluxGen Technologies Pvt. Ltd, Bangalore  
Topic covered: IoT applied to Sustainable Technologies  
Course/COD mapped: PO1, PO5, PO7, PO9, PO10, PO12  
Date: 08.10.2018 and 09.10.2018  
Signature of the resource person: *[Signature]*

Duration: 2 Days

Audience: Registered students of Mechanical Engineering & Electronics and Communication Engineering.

Venue: Auditorium 2 & CAD Lab

### **Department of Mechatronics Engineering**

#### **REPORT ON “HANDS-ON SESSION, PROJECT BASED LEARNING USING MATLAB AND SIMULINK” organized by ISTE and MACX, Mechatronics Department.**

**Date:** 5<sup>TH</sup> and 6<sup>TH</sup> March 2019    **Location:** Simulation Lab

Two day workshop on Project based learning using MATLAB SIMULINK with hands on sessions was organized by ISTE and MACX, Department of Mechatronics in association with the technical experts from Technoclog, Moodbidri. A total of 35 students from Mechatronics department participated in the workshop.

Vijay Kumar Yadav a resource person from Technoclog introduced the students with MATLAB, scope, toolboxes, importance of MATLAB, working with command window. Students had hands on sessions on MATLAB software which included matrix operations, arrays, working with M-file, built in functions and many more mathematical operations.

On the second day students had sessions on Data Processing, Visualization and Graphics in MATLAB, Graphical User interface, Designing GUI, Writing Scripts for GUI, writing app using 3D plots like surf, Mesh, Contour Creating APP for finding Factorial Finding. The students in the workshop were exposed to Project Implementation and developing an Algorithm model using binary phase shift Keying modulation and Demodulation in Digital Communication systems. Simulink Library, designing Models in Simulink, simulating Models in Simulink, designing Blocks using Scripts in Simulink, scripts, Callbacks in Simulink, applications of Simulink

Badaga Mijar, Moodbidri-574225

Hands on Session by Mr. Vijay Kumar Yadav on simulink

The students had interactive sessions on applications of simulink and its implementation in various application. Awareness was creating regarding usage of simulink in project implementation, advance SIMULINK using automotive and aerospace applications and Simulink fundamentals for aerospace and automotive applications, design a power train vehicle using simscape. Students were also trained to design a mechatronic system model using simulink and simscape tool box, image processing/bio-medical image processing, basics of digital image processing, difference b/w image and digital image, pixel, pixel intensity & gray levels, image vectorization, Image Histogram & Histogram Resizing. Students also learned to create an app for online E-commerce transactions using image processing and Graphical User Interface (GUI) by encryption and decryption of Images.

## Mangalore Institute of Technology and Engineering

(An ISO 9001:2015 Certified Institution)

(A Unit of Rajalaxmi Education Trust)

Badaga Mijar, Moodbidri-574225

Workshop was beneficial to the students as MATLAB & SIMULINK are essential requirements to complete their academic projects and research. This workshop will be a mile stone in student's career which has helped them in laying strong foundation on MATLAB and SIMULINK.

“Hands-On Session, Project Based Learning Using MATLAB and Simulink “

WORKSHOP ON MATLAB & SIMULINK. Date: 5 & 6 March 2019

#### **Two Days Workshop Report on**

#### **“THE TRENDS IN INTERNET OF THINGS”**

**Date:10-02-2019**

Department of **Information Science and Engineering** has organized two days' Workshop on “The Trends in Internet of Things” on **8<sup>th</sup>&9<sup>th</sup> of February, 2019** in association with Dlithe for all interested ISE students by **Mr. Raveendra** .

The inaugural function was hosted by Ms. Varsha K along with a prayer song by Ms. Shreya Bhat. The guests for the program were Mr. Adarsh Raveendra (Trainer), Mr. Sridhar Murthy (Founder of Dlithe), Mr. Manjunath H (HoD of ISE Department) and Mr. Raghavendra M D (Co-Ordinator of Zerone committee

**Dignitaries during the formal inauguration. The Chief Guests for the program were Mr. Adarsh Raveendra (Trainer) and Mr. Sridhar Murthy (Founder of Dlithe).**

The Internet of Things (IoT) is a system of interrelated computing devices, mechanical and digital machines, objects, animals or people that are provided with unique identifiers and the ability to transfer data over a network without requiring human-to-human or human-to-computer interaction.

The program completely involved the learners in the IoT platform, allowing them to walk away fully ready to build applications using MQTT and to build IoT dash board . The program includes the absolute basics required to help learners understand the very core of Internet of Things.

### **Topics Covered:**

#### **➤ Day 1: (08/02/2019)**

##### **➤ Session 1:**

- Introduction in to Internet
- What is Internet of Things?

## MANGALORE INSTITUTE OF TECHNOLOGY AND ENGINEERING

(ISO 9001:2015 Certified Institution)

(A Unit of Rajalaxmi Education Trust®, Mangalore-575001)

Affiliated to VTU, Belagavi, Approved by AICTE, New Delhi

- The Architecture of IoT.
- Use-cases of IoT.

### ➤ Session 2:

- Programming a Raspberry Pi.
- Controlling LED Through IoT.
- IoT Cloud Connectivity - sending data to the cloud.

### ➤ Day 2:(09/02/2019)

#### ➤ Session 3:

- Creating a Google action
- Controlling IoT device .
- Understanding IoT protocols.

#### ➤ Session 4:

- Applications were created using MQTT.
- Developing own IoT dash board.

The program bridged the gap between academics and industry, also helped the students to gain deeper knowledge on the trends in Internet of Things.60 students have attended the workshop and remarkable Feedback was received from students.

### Report on the Workshop

**Title: Workshop on Bootstrap and Angular JS**

**Resource Person(s)/ Organization(s):** ROSHAN FERNANDES, Associate Professor at NMAM Institute of Technology.

**Experience :** 14 years of Teaching Experience at NMAM Institute of Technology, Nitte.

#### **Education**

- o Currently pursuing his PhD in .....at VTU.....
- o Master of Technology in Computer Engineering (M.Tech) at Sri Jayachamarajendra College of Engineering, Mysore, First Rank with Gold Medal from VTU
- o Bachelor of Engineering (BE) in the Field Of Study Computer Science and Engineering at MIT, MANIPAL

*(Name and designation along with a brief profile of the resource person)*

**Date(s):** 12 October 2017

**Duration:** One Day.

**Target Audience:** Computer Science Students (3rd Year)

**Brief about the event:***(Overview of the event, highlighting the need and what it would cater to the target audience.)*

A One Day Workshop by Mr. ROSHAN FERNANDES, Associate Professor at NMAMIT has resolved the youngster myth on creation of attractive user friendly web page using Bootstrap and AngularJS Concepts. The popularity of web application leads to further research on creating attractive and user friendly web sites using advanced concepts like Bootstrap and AngularJS. The Deeper and practical Insights into efficient web pages would help the students to get into industry.

**Keynotes from the address:** *(Extracts from the talk of the Resource Person. Also a note on guests and their addresses to the audience if ever the event had a formal function)*

Mr. ROSHAN FERNANDES, Associate Professor at NMAMIT, Nitte, delivered a technical talk on “Bootstrap and AngularJS” for 3<sup>rd</sup> Year CSE Students. The workshop was conducted in two sessions. In the morning session, the speaker give an introduction about the basics of HTML and Web Pages. In the afternoon Session, the speaker spoked about Bootstrap and AngularJS programming with practical exposure.

## Department of Electronics and Communication Engineering

### Activity Report

**Title:** Two day workshop on “Machine Learning and its Applications in Engineering & Technology”

**Dates:** 6<sup>th</sup> & 7<sup>th</sup> April 2018

**Timings:** 10:00 AM to 4:00PM

**Target Audience:** 3<sup>rd</sup> and 4<sup>th</sup> Year Students of ECE

The Department of Electronics and Communication Engineering of MITE Moodbidri, organized two day workshop on “Machine Learning and its Applications in Engineering and Technology” on 6<sup>th</sup> & 7<sup>th</sup> of April 2018. Aim of the workshop was to create awareness among the teaching faculties and students about Machine Learning & its applications. The workshop focused on following topics:

- Building mathematical background to the subject (Linear Algebra and Probability/ Random process ideas)
- Machine learning for Multi-biometric tasks
- Highlighting different aspects of Machine learning
- Applications of Machine learning in various fields – ECG, EEG, Weather Forecasting
- Hands on session using appropriate tools for machine learning

### Inaugural Function:

The workshop was inaugurated in auditorium 2 of Academic Block at 10:00 AM on 6<sup>th</sup> April 2018. Dr. Srikanth Rao, Director, MIT, Manipal was the chief guest. The inaugural function commenced with a prayer song and lighting of the lamp by the dignitaries. Mr. Sathisha S, HoD, Department of Electronics & Communication Engineering, welcomed the gathering. Program co-ordinator Dr. Malini Suvarna introduced the chief guest Dr. Srikanth Rao. Dr C R Rajashekar, Vice-Principal presided the function. Mr Sudarshan Bhat, Assistant Professor, Department of ECE proposed the vote of thanks.

## Day 1: 6/4/2018, Session I

### Speaker of the session Dr. Srikanth Rao

The workshop was inaugurated by Dr. Srikanth Rao, Director, MIT, Manipal. Mr. Rao obtained his B E degree in Mechanical Engineering from University of Mysore in 1984 and then completed MTech and PhD from Manipal Academy of Higher Education in the year 1991 and 2009 respectively. In 2012, he was elevated to the post of joint director, MIT and served in that position for three years. In 2015, he was appointed Director Admissions MAHE. His areas of interests include Industrial tribology, Manufacturing process engineering, CAD/CAM, Production & operations management and Technology Management.

Dr. Srikanth Rao enlightened the gathering about the current scenario in the world to catch up the technologies present around us, especially the importance and requirement of Machine learning and its applications in the corporate world. He also explained the various algorithms used in machine learning for the wide range of applications. He encouraged the participants to work for start-ups and also be an entrepreneur with an idea of being a job provider rather than a job seeker and have a basic knowledge about different domains along with the domains which one he or she is good at.

**Day 1: 6/4/2018, Session II**

**Speaker of the session: Dr Ashok Rao**

Dr. Ashok Rao holds B.E, M.E and Ph.D in Electrical Engineering from Mysore University (1982), Indian Institute of Science (IISc), Bangalore (1985) and Indian Institute of Technology, Bombay respectively. He specializes in Digital Signal Processing and is known to be one of the leading figures in this area in INDIA. Dr. Rao guided several post graduate and Ph.D students in the field of E&C and Computer Science areas and he has over 100 publications in reputed journals. He is also a specialist in Solar Photo Voltaic (SPV) and has been trained by Siemens Solar California during 1996-1997. He is also an Entrepreneur having successfully started and managed several IT & Renewable Energy companies during 1998 to 2011.

Dr. Ashok Rao addressed the audience on '**Artificial Neural Networks and its Applications**'. He started the session with explanation about the functioning of human brain followed by comparison of brain with traditional computer. The history of artificial neural networks and the basic reason why we are interested building of artificial neural networks. The working of artificial neural networks using Boolean OR and EXOR gates was explained. He stated that artificial neural network consists of a pool of simple processing units which communicate by sending signals to each other over a large number of weighted connections. According to Dr. Rao, artificial neural

Badaga Mijar, Moodbidri-574225

network (ANN) is either a hardware implementation or a computer program which strives to simulate the information processing capabilities of its biological exemplar. ANN is a technique for solving problems by constructing H/W and S/W that works like human brains. Dr. Rao explained backprop algorithm and its implications in artificial intelligence. Applications of ANN in various research and developmental activities such as pattern recognition, data interpretation, prediction, diagnosis, planning, monitoring, debugging, repair, instruction etc were explained in his session. Dr. Rao suggested that there is an urgent need of more complex multi-layer networks to solve more difficult problems. Talk was concluded saying ANN is the initiation of neural networks in much simpler way.

## Day 2: 7/4/2018, Session III

### Speaker of the session: Dr. Deepu Vijayasenan

The first session of the day II was handled by Dr. Deepu Vijayasenan, Assistant Professor, Department of Electronics and Communication Engineering, NITK, Suratkal. Dr. Deepu Vijayasenan holds a Ph. D from EPFL, Laisanne and Post-Doctoral Degree from University of Saarbreucken Saarland. His areas of interests are Speech Signal Processing, Machine Learning.

Dr. Deepu presented a talk on “**Applications of Fuzzy Logic in Engineering and Technology**”. In this modern era of engineering and technology, innovation has a great demand. Fuzzy logic is a practical mathematical addition to classic Boolean logic. Dr. Vijayasenan also explained the applications of fuzzy logic in numerous electronics and engineering fields such as control systems engineering, image processing, power engineering, industrial automation, robotics, consumer electronics, optimization etc.

(A Unit of Rajalaxmi Education Trust)  
Badaga Mijar, Moodbidri-574225

**Day 2: 7/4/2018**

**Session IV**

**Speaker of the session: Dr. Roshan Joy Martis**

Dr. Roshan Joy Martis holds a Ph.D from School of Medical Science and Technology of IIT Kharagpur. He was R & D Engineer at Ngee Ann Polytechnic, Singapore in a Ministry of Education funded project during 2012-2014. He is a senior member of IEEE USA and currently working as a Professor in the Dept. of ECE at VCET Puttur.

Dr. Roshan presented a talk on “**Applications of Machine Learning in Engineering and Technology**”. During this session he explained the applications of machine learning in recent technologies and healthcare informatics system. Dr. Roshan pointed that the development of machine-learning approach can be used in a web-based manner which will give global network for multipurpose applications and can be used in remote monitoring of patients in many healthcare field. Different machine learning applications in biomedical signal analysis, including cardiology, electroencephalography, and electromyography were briefed by Dr. Roshan.

**Day 2: 7/4/2018**

**Session V**

**Speaker of the session: Dr. Radhika M. Pai**

The last session of the two day workshop handled by Dr. Radhika M. Pai, Professor in the Department of Information and Communication Technology at MIT Manipal. Dr. Radhika has 25 years of teaching experience and expertise in pattern recognition, big data analysis and cloud computing. Dr. Radhika engaged hands-on session using R & R-studio for big data analysis. The resource person shed lights on the concepts of R statistical package and a set of practical exercises based on R programming for big data analysis were demonstrated.

## Department of Electronics and Communication Engineering

### Activity Report

**Title:** One day workshop on “Analog and Digital Circuit Simulation using Multisim”

**Resource Person:** Mr. Srikrishna Shastri, Associate Professor, MITE, Moodabidri

**Date:** 4/8/2017

**Timings:** 9:00 AM to 5:00PM

**Target Audience:** 2<sup>nd</sup> year Students of ECE

**Profile of the Speaker:** Mr. Sri krishna Shastri working as Associate Professor, Department of ECE, MITE, Moodabidri since 2015. He is having around 15 years of experience in teaching.

**Keynote address:** The main objective of this workshop is to provide the awareness to the students on Simulation of Analog and Digital Circuits using open source tool. The session started with types of open source tools are available for simulation of analog and digital circuits like PSPICE, MultiSim, SiMetrix, TINA, PowerSim, TopSpice, Circuit Simulator 1.5j, NgSpice, EasyEDA, CircuitLogix, MacSpice, SimScale, Micro-Cap 10, PECS, Proteus, QUCS, Solve Elec, XSpice, ect.,

Then he selected Multisim software, because it is a simulation software developed by National Instruments and it is very popular using in electronic design. This software mainly has been used by engineers, academic professionals and educators, colleges, students, universities. Multisim is used to schematic capture and simulate program of analog, digital and mixed analog/digital circuits. Multisim is also used for printed circuit board design.

He continued with many examples, first he practically shown how to draw schematic circuit design in the Multisim environment by Selecting Components. Basically the multisim having Component Browser, that organize- all the database components in three logical levels. first one is The Master Database which contains all components in a read-only format. The Second one is Corporate Database, in which user can save custom components to be shared with colleagues. The third one is User Database, in which custom components are saved. That can be used only by the specific designer. Generally User database will select for circuit design.

### **TWO DAY WORKSHOP CONDUCTED BY AEROTRIXSKYFI LABS BENGALURU ON: CNC MACHINE USING ARDUINO**

**Date:** 12/04/19 &13/04/19

**Venue:** PG001

**Audience:** Mechanical Engineering Students

**Guests:**Mr.Nikhil Shankar R, Tech Manager at Skyfi Labs

**Organized by:** Mr. Yajnesha P Shettigar& Mr. Vijaykumar Meti

#### **Course Highlights:**

Design and build a CNC machine using Stepper motors ,Arduino control board ,wooden supports etc. programming of CNC to do the drilling and milling operations. This is a bridge course for mechanical engineers to enter into the field of manufacturing Industries.

#### **Course Structure**

##### **Day 1**

**Session 0:** SMS registration: 10min

**Session 1:** Theory – 3 hrs Lecture by Trainer.

**Session 2:** -Design and Fabrication 1hrs

**Session 3:** Fabrication - 4hrs.

##### **Day 2**

**Session 1:** Theory – 3 hrs Lecture by Trainer.

**Session 2:** Fabrication: 5 hrs.

#### **Topics Covered**

- Basics of CNC coding
- Control of Motor Drives
- Motion controls at different axis
- Drilling and Milling operations

**POs Mapped:**PO1,PO5,P06,PO7,PO9,PO10,PO11,PO12

This is a brief report of Two day workshop on “CNC Machine using Arduino” conducted on 12/04/19 & 13/04/19. Mr. Yajnesha P Shettigar welcomed the speaker of the session, Mr. Nikhil Shankar R, Tech Manager at Skyfi Labs.

The workshop began with an inauguration program where the coordinators of AeroTriXskyfi Labs were present. The program was head by the faculty coordinator Mr. Yajnesh P Shettigar, Assistant Professor, Department of Mechanical Engineering along with Mr. Vijaykumar Meti, coordinator MECHMITE. Students were then asked to register using their Cellphones.

In this workshop students learnt about building of CNC Milling machine. The programming of stepper motors is done using Arduino. Students did coding of CNC machine with the support of trainer. The in depth knowledge about the CNC is covered in this workshop, which is most required aspect for the current competitive era for all mechanical engineer. The prototype model is built by students was successfully executed the task link drilling and milling etc.

### LEAN SIX SIGMA GREEN BELT TRAINING

Department of Mechanical Engineering of Mangalore Institute of Technology & Engineering (MITE), Moodabidri in collaboration with Binghamton University, State University of New York organized a five days “Lean Six Sigma Green Belt Training (LSSGBT)” from April 16<sup>th</sup> to 21<sup>st</sup>, 2018 at MITE campus. Dr. Mohammad T. Khasawneh, Professor & Chair, Systems Science and Industrial Engineering, Thomas J. Watson School of Engineering and Applied Science State University of New York at Binghamton, New York 13902, USA conducted training sessions on various aspects of lean six sigma. Around 50 students from Mechanical Engineering discipline participated in the program and benefited by acquiring the knowledge on applications of Lean Six Sigma. The welcome address is given by Dr. Rajashekara, HOD, Mechanical engineering, MITE.

Figure 1. Lean Six Sigma Green Belt Training by Dr. Mohammad T. Khasawneh.

Figure 2. Participants for Lean Six Sigma Green Belt Training

The training program handout and data spreadsheet was shared with all the participating students on 10th April 2018. In addition to the above training sessions, Professor offered students to access a pre-recorded Statistics course. This course of 6.5 hours duration would serve as an excellent pre-requisite for students enrolled in the training program. The Link, username and password for this course was mailed to all students well before the commencement of the program.

**Following are the topics covered in various session spread over five days.**

#### **DAY 1**

The program scheduled on 16th April 18, 2018 at 1.30pm to 6pm with appropriate break times. Professor did the revision of yellow belt training. Continuous improvement process, Fundamental concepts and Lean are the topics covered on the day 1.

#### **DAY 2**

On Day 2, Introduction to Six Sigma and DAMIC frame work was covered by professor. The students were informed to download MINITAB and Microsoft excel for problem solving. Define, Measure & Analyse phases were discussed in detail on the same day.

#### **DAY 3**

Improve and Control phase was discussed in detail. An understanding of Design of experiments (DOE) & statistical models and their associated procedures used to analyze the differences among group means by Analysis of variance (ANOVA). Case study on lean Six Sigma was done on the same day. Exam overview and instructions are given to students in afternoon session.

### Report of Technical talk

1. **Title:** Lean Six Sigma Yellow Belt Training
2. **Date organized:** 07/09/2017 - 09/09/2017

3. **Resource person name & Brief Description**

**Dr. Mohammad T. Khasawneh, Ph.D.**  
Professor & Chair, Systems Science and Industrial Engineering  
Associate Director, Watson Institute for Systems Excellence  
Director, Healthcare Systems Engineering Center  
Graduate Program Director, Executive Master of Science in Health Systems  
Graduate Program Director, Industrial and Systems Engineering  
Thomas J. Watson School of Engineering and Applied Science  
State University of New York at Binghamton  
Binghamton, New York 13902, USA

4. **Duration:** 03 days
5. **Topics Covered:**
  - a. Six Sigma Principles
  - b. Six Sigma Tools for Analyse
6. **Venue:** Auditorium I
7. **Attendance Sheet:** Attached
8. **Outcome of the Talk:** Students were able learn proven principles and tools specific to six sigma and lean.
9. **Program Coordinator:** Mr. Rahul Sanjiv
10. **Total Number of Students :** 57

**Mangalore**

**Department of Mechanical Engineering**

**List of Students Registered for Lean Six Sigma Yellow  
belt certification course**

### **Department of Information Science and Engineering**

#### **Two Days Workshop Report on**

#### **“APP DEVELOPMENT USING ANDROID”**

**Date: 24-03-2018**

Department of **Information Science and Engineering** has organized two days' Workshop on “App Development using Android” on **23rd & 24<sup>th</sup> of March, 2018** for all 6<sup>th</sup> semester ISE students by **Dr. Manoj Kumar M V, Founder & CEO, Rectopage Softwares.**

**Dr. Manoj Kumar M V Ph.D.** from National Institute of Technology, Karnataka (NITK), Surathkal in Department of Computer Science and Engineering. He has authored more than 25 research articles published in various international conferences, and journals. He has been invited as a resource person in more than 25 technical workshops, and faculty development programs on Data Science, and Mobile Application Development.

Android is an open-source project of the Open Handset Alliance that has revolutionized the user experience of a mobile device. With Android, it is a fact that mobile devices will have more user-friendly applications than ever before. The program completely involved the learners in the Android platform, allowing them to walk away fully ready to build Android applications. The program includes the absolute basics required to help learners understand the very core of Android application development.

## MANGALORE INSTITUTE OF TECHNOLOGY AND ENGINEERING

(ISO 9001:2015 Certified Institution)

(A Unit of Rajalaxmi Education Trust®, Mangalore-575001)

Affiliated to VTU, Belagavi, Approved by AICTE, New Delhi

### Topics Covered:

#### ➤ Day 1:

##### ➤ Session 1:

- Views, View Groups, Activities
- Views - TextView, EditText, Button, ImageView, CheckBox.
- View groups - Linear layout, Relative layout, Recyclerview.
- Activities - Lifecycle methods, StartActivity, StartActivityForResult

##### ➤ Session 2:

- Fragments and Data passing
- Fragments - Lifecycle methods. Add, show, hide and replacing fragments.
- Data passing - Intent types. Using Intent and Bundle for data passing.

#### ➤ Day 2:

##### ➤ Session 3:

- Storage in Android, AsyncTask
- Android Storage - SQLite (RDBMS), File storage (SD Card).
- AsyncTask - for consuming Network API.

##### ➤ Session 4:

- Services, Broadcast receivers and MVVM
- Services - Service types, Intent service.
- Broadcast receivers - Static and dynamic broadcast receivers
- MVVM design pattern

The program bridged the gap between academics and industry, also helped the students to gain deeper knowledge on App development in Android. 45 students have attended the workshop and remarkable Feedback was received from students.

Event 2	<b>Workshop on Data Analytics using Splunk</b>
Resource Person	<b>Mr.Bharath Kumar, Lead Consultant Analytics Team, Wipro Technologies, Bangalore</b>
Date	<b>14-10-16</b>
Brief about the Talk	<b>About the Workshop in Brief :</b> Mr.Bharath Kumar, Lead Consultant Analytics Team, Wipro Technologies, Bangalore conducted one day workshop on <b>“Data Analytics using Splunk”</b> for 5 <sup>th</sup> Sem CSE students. Workshop started with a technical talk in the forenoon session on Data Analytics using Splunk tool, in which he explained the need of data analytics and its applications. In the afternoon session, speaker demonstrated the practical experimental work of data analytics using splunk tool.
Photos	 A photograph of Mr. Bharath Kumar, a man with a mustache wearing a light blue button-down shirt, standing and gesturing with his hands while speaking. He is in a room with a blue backdrop that features the text 'MANGALORE INS' and 'MITE (A Unit of)'. To his right, a large projection screen displays the text 'Computer Organisation of Resource'. In the foreground, there are several black chairs and small tables with water bottles on them.

Figure1. Mr.Bharath Kumar Delivering a talk on Data Analytics using Splunk

Event 5	<b>Workshop on BlockChain &amp; HyperLedger</b>
Resource Person	<b>Mr.Bharath Kumar, Lead Consultant Analytics Team, Wipro Technologies, Bangalore</b>
Date	<b>17-02-17</b>
Brief about the Talk	<b>About the Workshop in Brief :</b> : Mr.Bharath Kumar, Lead Consultant Analytics Team, Wipro Technologies, Bangalore conducted one day workshop on “ <b>BlockChain &amp; Hyperledger</b> ” for 6 <sup>th</sup> Sem CSE students. Workshop started with an Introductory Technical Talk on Block chain and its application towards resolving the issue of e-banking charges. Talk was followed by the experimental demo & hands on experimental study on creation of blockchain using C, in which students were enriched with the practical knowledge on creating block chain based transaction.
Photos	 A photograph showing three men seated at a blue table during a workshop inauguration. The man on the left is wearing a light-colored shirt and glasses. The man in the middle is wearing a light blue shirt. The man on the right is wearing a blue shirt. They are all looking towards the camera. Behind them is a blue backdrop with text that includes 'MITE', '(An ISO 9001:2008 Certified Institute)', '(A Unit of Rajalaxmi Education Trust Mangalore)', and 'Department of Computer Science & Engineering'. There is also a logo for 'C.O.R.E.' on the backdrop. A woman in a blue dress is standing to the right of the table, holding a document.

Event 7	<b>Workshop on WebVR- Virtual Reality</b>
Resource Person	<b>Srushtika Neelakatan, International Tech Speaker, At Mozilla</b>
Date	<b>12-04-2017</b>
Brief about the Talk	<b>About the Workshop in Brief :</b> Ms Srushtika Neelakatan, Fozilla Firefox, Bangalore conducted one day workshop on WebVR- Virtual Reality. The workshiop conducted in two session, in the morning session speaker addressed about the realization of Virtual Reality in computer. In the afternoon session speaker showcased a demo on Virtual Reality using AFrame and conducted hands on session for students, in which students developed their own Virtual Reality program and presented and followed by awarding the best program.
Photos	 A photograph showing a woman, Ms Srushtika Neelakatan, standing in front of a large projection screen in a classroom or lecture hall. She is wearing a white sleeveless top and dark pants, and is gesturing with her hands while speaking. The screen displays a blue background with a white circular logo that says 'Mozilla'. The room has a blue wall with the word 'ENGINEERING' visible. Several students are seated in the foreground, looking towards the speaker.

Figure 1. Ms Srushtika Neelakatan addressing students on realization of Virtual Reality in computer

### Activity Report

**Title:** One day Workshop on “Signal Processing using Octave”

**Resource Person:** Mr. Sanjeevi kumar, Asst. Professor, Dept of ECE, MITE, Moodabidri

**Date:** 12/8/2016

**Timings:** 9:00 AM to 5:00 PM

**Target Audience:** 3<sup>rd</sup> Year Students of ECE

**Profile of the Speaker:** Mr. Sanjeevi Kumar is working as Asst. Professor in the Department of ECE, MITE, Moodabidri since 2011. He is having 6 years of Experience in Teaching.

**Keynote address:** The Main objective of this one day workshop is to provide the awareness to the students on Simulation of Signal Processing using open source tool. The session started with types of open source tools are available for simulation of Signal Processing. He explained about Octave. is one of the free software. runs on GNU/Linux and Windows and he explained how its syntax is largely compatible with Matlab. He given a demo on the Octave interpreter that can run in GUI mode, as a console. It is having one good advantage is Matlab scripts can run in Octave.

Octave has extensive tool, he explained how octave is mainly useful to solve common numerical linear algebra problems, finding the roots of nonlinear equations. integrating ordinary functions, manipulating polynomials and integrating ordinary differential and differential-algebraic equations. How It is also useful to solve linear algebra operations on vectors and matrices.

He briefed on octave software with examples of easily extensible and customizable via user-defined functions written in Octave language. Also using dynamically loaded modules written in C++, C, Fortran, or other languages. This software useful to Visualize data in 2D and 3D using high-level plot commands and executed code by taking some simple examples.

*(A Unit of Rajalaxmi Education Trust)*

Badaga Mijar, Moodbidri-574225

---

He taken simple examples and executed code on Elementary Calculations, Creating a Matrix, Matrix Arithmetic, Solving Systems of Linear Equations, Integrating Differential Equations, Producing Graphical Output, Help and Documentation, etc.,

He concluded the session that Octave is an interpreted programming language. It is similar to C and supports many common C/C++ standard library functions, freely download software and easy to use. However, it more useful to solve many problems on Signal Processing.

## **Department of Information Science and Engineering**

### **Report**

**Title: Workshop on “JAVA AND ADVANCED JAVA”.**

**Resource Person: Mr. Praveen Gujjar, Assistant Professor, PESITM, Shimoga**

**Date: 15/11/2016 and 16/11/2016**

**Target Audience: 3<sup>rd</sup> year Students of ISE**

#### **Outlines of the workshop:**

The Department of Information Science and Engineering of Mangalore Institute of Technology & Engineering, Moodbidre has organized a 2-day workshop on “JAVA AND ADVANCE JAVA WORKSHOP” on: 15th & 16th November 2016 with the aim to provide hands on experience with Java programming and its object-oriented features. Students learnt to write, compile and execute Java programs, build robust applications using Java’s object-oriented features. This workshop was also useful in the reference of placement of students

#### **DAY 1:**

- Introduction to JAVA
- Features of JAVA
- OOPs Concept
- JDK, JRE, JVM
- Classes and Object
- Command Line Arguments
- Instances (Variables and Methods)
- Constructor

#### **DAY 2:**

- Inheritance
  - Method Overloading and Overriding
  - Constructor Overloading

## Mangalore Institute of Technology and Engineering

(An ISO 9001:2015 Certified Institution)

(A Unit of Rajalaxmi Education Trust)

Badaga Mijar, Moodbidri-574225

In this workshop students acknowledged knowledge of JAVA and ADVANCED JAVA Programming. Java is a general-purpose computer programming language that is concurrent, class-based, object-oriented, and specifically designed to have as few implementation dependencies as possible. It is intended to let application developers

“write once, run anywhere” (WORA), meaning that compiled Java code can run on all platforms that support Java without the need for recompilation.

He also addressed the objective of this workshop is to provide opportunity for students to enrich their knowledge in the area of Object-Oriented Programming using JAVA and ADVANCED JAVA Language. This workshop will provide a vibrant opportunity for students in the recruitment phase and to enhance their programming skills. This course is based on hands-on exercises and is focused on developing Programming and Logical skills.

### Report of Technical talk

1. **Title:** Lean Six Sigma Yellow Belt Training
2. **Date organized:** 20/09/2016 - 22/09/2016
3. **Resource person name & Brief Description**

**Dr. Mohammad T. Khasawneh, Ph.D.**  
Professor & Chair, Systems Science and Industrial Engineering  
Associate Director, Watson Institute for Systems Excellence  
Director, Healthcare Systems Engineering Center  
Graduate Program Director, Executive Master of Science in Health Systems  
Graduate Program Director, Industrial and Systems Engineering  
Thomas J. Watson School of Engineering and Applied Science  
State University of New York at Binghamton  
Binghamton, New York 13902, USA

4. **Duration:** 03 days
5. **Topics Covered:**
  - a. Six Sigma Principles
  - b. Six Sigma Tools for Analyse
6. **Venue:** Auditorium I
7. **Outcome of the Talk:** Students were able learn proven principles and tools specific to six sigma and lean.
8. **Program Coordinator:** Mr. Rahul Sanjiv
9. **Total Number of Students :** 94
10. **Result Sheet:** Attached

### **Two Days Workshop Report on** **“WEB APPLICATION DEVELOPMENT”**

**Date: 30-09-2015**

Department of Information Science and Engineering has organized two days' Workshop on “Web Application Development” on 29<sup>th</sup> & 30<sup>th</sup> of September, 2015 for all 7<sup>th</sup> semester ISE students by Mr. Mallikarjun Inamathi, Technical Lead, Tech Mahindra.

The program began with an introduction to web basics and slowly covered all the details of web development and like java scripts and jQuery. It also included server connection and search engine optimization in the perspective of industry.

#### **Topics Covered:**

##### **➤ Day 1:**

##### **➤ Session 1:**

- About Internet, Basics of HTML and HTML5
- Styling webpage using CSS

##### **➤ Session 2:**

- Development and project management using Aptana Studio.
- Adapting the website design into development stage using Adobe Photoshop

##### **➤ Day 2:**

##### **➤ Session 3:**

- JavaScript's through jQuery
- PHP form validation
- Web Server setup
