# Structured Feedback from Employer 2021-22

An endeavor towards continuous improvement in the teaching–learning process in an engineering institution emphasizes getting the right feedback from the major stakeholder groups. As one of the key stakeholders in providing career opportunities to our graduates, the evaluation of our graduates in their professional activities by industry recruiters plays a significant role in the evaluation of knowledge, skills, and professional education imparted in the institution. This helps us provide appropriate professional education and shape the career opportunities of our students.

The adequateness of University Course offered in the program is rated as Good by 70%. Programs and add-on courses that can bridge the gap in the curriculum should be conducted regularly.

- 10 Your rating for the overall performance of our graduates, considering Knowledge-Skill-Attitude at the workplace is

Your rating for the overall performance of our graduates, considering Knowledge-Skill-Attitude at the workplace is  
20 responses

The overall Rating of the Graduates with respect to the Knowledge-Skill-Attitude has been rated as Good by 55%, which is an indicator for more scope for improvement. More Emphasis on hands-on technical skill development programs and certification programs that lead to development of Projects/Products and better understanding of Course relevance in real-time should be focused

**Would you like to suggest further improvement in the facilities / support provided by the Institute towards enhancing Additional Employability Skill Sets required for the Graduates, if any**

Students must try to relate the technical skills learned to industry problems and come up with possible solutions. That'll keep them in good stead before marching into the professional set-up

More training on Domain specific skill enhancement is required.

Students should be more communicative, focus on enhancing the communication skills

Students should attend courses and become more good at coding in their interested domain .

Need more practical Exposure on real time use cases

More emphasis on hardware hands on knowledge

Good to observe that students are having RPA Skills, kindly Strengthen the same

Add Certifications like Salesforce that will help Students more employable

Students need to visit industries and be aware of course applicability in industry

Focus on strengthening foundation skills
