The Committee reviewed the Book requirements received by all the Departments, and approved the same for procurement. The Librarian was assigned the responsibility to call for Competitive quotations and prepare comparative statements from different publishers and place the order based on better offers.

Conduction of User awareness progamme:

Discussed about the Talk session on 'IP Awareness Programme' organized by MITE NDLI Club in Association with IPR Cell MITE for the Faculty, Research Scholars, Students on 10th January 2022. The Resource Person Dr. Gopalakrishna, Secretary General Indian Technology Congress Association, University Space Engineering Consortium India, gave a detailed presentation for the participants in order to get acquainted and understand that intellectual property is an important skill set in today's increasingly dynamic information based economy.

Conduction of Workshop on Technical Writing in outcome based education:

Discussed about the workshop on Importance of Technical writing in outcome based education organized by MITE NDLI CLUB in Association with Dept. of E&C with ISTE MITE Chapter for the students on 21/05/2022. The Resource person Prof. P Prateek Rai N, HOD PG Department of Mathematics, Vivekananda College of Arts Science and Commerce Puttur D.K. and Mr. Sachin M Naik, Research Scholar Department of Mathematics and Computational Sciences (MACS) NITK Surathkal D.K. The resource persons explained about the importance and objective of research papers, need of research, Characteristics, Types approaches in research

Better utilization of the resources available in the library

Library Committee was informed to create awareness to the students about the books, journals, magazines and online journals. Also, they were informed to create awareness about the availability of the previous year's University question papers. The committee decided to arrange workshops and webinars about usage of e resources. Committee Members should also discuss with students for any issues related to the Library and bring it to the notice of the Librarian for improvement

Meeting II

The Second meeting of the Library Advisory Committee for the Academic year 2022-23 was held on 25/11/2022 at 12:30 pm, Ground floor Library Discussion Room.

Agenda:

- 1) Review of purchase details.
- 2) Renewing the membership of VTU Consortium towards the subscription of e –Resources.
- 3) Conducting workshop.
- 4) Organizing User awareness programmes
- 5) Better Utilization of Budget

Review of purchase details.

The library advisory committee revived the books purchased for the semester. The New books are given accession numbers and details fed into library database, which is made available for circulation for the users.

Renewing the membership of VTU Consortium towards the subscription of e –Resources.

The Committee had a discussion on the renewal of VTU Consortium membership, e-Resources Subscription and conducting awareness program on remote access & webinars. It was decided to continue the Membership and the Librarian was informed to process the same immediately. Also, the decision was taken on the purchase of required books, based on the requirements received from different Departments. The Librarian was assigned the responsibility to call for Competitive quotations and prepare comparative statements from different publishers and place the order based on better offers.

Conducting VTU e –Resource Awareness Programm through virtual platform Association with VTU Consortium & e-Resource Publishers

To Familiarize Library users with VTU Consortium e-Resources Elsevier Science Direct, IEEE, Springer Nature, Taylor & Francis, Emerald, Proquest, Turnitin, Sententia Lanquill (Net Analytics), MAPMy Remote Access organized webinar sessions as per VTU information

Conduction of Workshop

MITE-NDLI Club in Association with E&C Department & Institutional Innovation council organized a workshop on “Literature Review & Reference Management Tools” for all Library Users on 27th September 2022 at 9.00 AM at Auditorium 2. Resource Person Mr. Ramalingam H.M. explained various resources for the available Literature and the reference management tools for writing journal papers and the project reports, furthers the student team had a practice session in the laboratory.

WEB ACCESS: REMOTE ACCESS

MITE Library has provided remote access to the resources wherein users can access literature from any location at any time of the day. User credentials are provided to the users across the Institute to utilize this facility. Awareness training programs are also conducted for the ease of users on web access which is well appreciated, our e-access system was of immense help to the institute and all the users, and it was further strengthened with multiple webinars.

USER EDUCATIONAL WEBINARS

During the year 2022-23, as a part of VTU Consortium, User awareness sessions on remote usage of library resources was conducted for the benefit of Library users through Webinars. These webinars were conducted by the consortium through the publishers which had sessions covering various topics of 'How to publish, Improving Research & Performance outcomes Confirmation, Journal Intelligence Solution', 'Editorial Perspectives on Science & Technology Journals' and all VTU Consortium e Resources awareness sessions Remote access of resources and various aspects of general interest to users were also part of the Webinars. The Faculty who attended these webinars has also been provided with certificates through the Publishers. Some of the webinars organized are as follows:

User awareness Programmes

The Library is an integral part of any educational and research Institution. A good and vibrant Library can keep the spirit of education alive. MITE-LIBRARY, under the guidance of the Library Advisory Committee takes an active part in organizing activities such as user awareness webinars, talks, workshops, Seminars, Book Talks, Books Exhibitions for the faculty and students in order to update them with the latest trends in the field of education and research.

The recently joined first year students were given a guided tour of the library in order to get acquainted and familiarized with the resources and services available within the Library. The students were also briefed about the library resources and the procedures to be followed avail the books.

MITE Library organises User awareness Training sessions whenever a new product, service or facility is introduced as a part of Library resources. Additionally, a few programs of general interest for the student and faculty of MITE are also conducted to create a better academic-research atmosphere in the campus. A glimpse of some of the User awareness and general programs Conducted by MITE–Library are as follows:

Seminar on Intellectual Property Rights

By Mr. Ramashish Paul, Examiner of Patents and Design, Intellectual Property Office Chennai

03-03-2023

Mr. Ramashih Paul, a seasoned Examiner of Patents and Designs at the esteemed Patent Office in Chennai, served as the distinguished resource person for the program. With his extensive expertise in intellectual property rights and deep knowledge of IP infringements, Mr. Paul proved to be an invaluable asset. During his engaging presentation, he shed light on the intricate process of filing patent applications in India, ensuring that the students gained valuable insights into this complex field.

Mr. Paul's interactive approach captivated the audience as he actively encouraged students to participate in a question and answer session. Their enthusiasm and eagerness to learn were met with encouragement and appreciation. Those students who provided correct answers were rewarded with thoughtful gifts from the esteemed speaker, further motivating them to actively engage in the discussion.

Overall, Mr. Ramashih Paul's involvement in the program not only enhanced the students' understanding of intellectual property rights and patent filing procedures but also fostered a sense of excitement and curiosity within the young minds, inspiring them to explore the world of innovation and creativity.

Faculty Enablement Program on Turnitin - for a plagiarism Free Writing

**By: Mr. Akshay Prasanna, Customer success manager Turnitin
02-02-2023**

Plagiarism is a growing concern in academic institutions worldwide. It refers to the act of using someone else's ideas, words, or work without giving proper credit. The advent of the internet has made it easier to access and copy content, making plagiarism detection and prevention a crucial aspect of academic writing. Turnitin is a widely used plagiarism detection tool that compares written works against a vast database of published sources and student papers. The Faculty Enablement Program on Turnitin is an essential tool in promoting plagiarism-free writing in the institution

MITE-NDLI Club & MITE-KSCST IPR Cell organized a “Faculty Enablement Program on Turnitin - For a plagiarism Free Writing”. The program aims to train faculty members to use Turnitin effectively, create assignments that promote original thinking, and teach students how to avoid plagiarism. Mr. Akshay Prasanna, Customer success manager of Turnitin provided the training for the faculty members on 2nd February 2023 in the MITE campus.

Mr. Akshay Prasanna on his presentation in the workshop

The Faculty Enablement Program covered the following topics:

- Overview of plagiarism and its impact on academic integrity
- Introduction to Turnitin and its features
- Creating assignments that promote original thinking
- Strategies for teaching students how to avoid plagiarism
- Interpretation of Turnitin reports and how to use them to detect and prevent plagiarism
- Best practices for using Turnitin in the classroom

A total of 113 faculty members attended the program, the program was concluded by collaborating and discussing best practices for plagiarism prevention, how faculty members can work together to promote academic integrity and ensure that students receive a quality education that values originality and critical thinking.

A glimpse of the Workshop

In the first session, the students are instructed about various sources available and accessing them using the VTU consortium access through <https://mite.mapmyaccess.com/> to get content from multiple journals. To improve the English writing, the students are introduced to <https://lanquill.com/>. Further, for the reference management, the Mendeley reference manager, from the installation to citation management, was explained to all the participants.

Students' Participation in the Session

A hands-on session concluded in the workshop's afternoon session for the student teams to practice all the software tools discussed in the morning. More than 75 students from the final year have participated and got benefited from the workshop.

ONE Day Workshop On

IMPORTANCE OF TECHNICAL WRITING IN OUTCOME BASED EDUCATION (OBE)

By

Prof. Prateek Rai N, HOD, PG Dept. of Mathematics Vivekananda College of Arts, Science and Commerce Puttur D.K.

Mr. Sachin M Naik, Research Scholar, Dept. of Mathematics, Mangalore University Konaje

21/05/2022

MITE – NDLI Club the Department of E&C, Department of Mathematics in association with ISTE – MITE Chapter organized a one day Workshop on “Importance of Technical Writing in Outcome Based Education (OBE)”. The objective of the Workshop is to expose the student in emerging technologies in the areas of the Documentary Designing System. Participants will develop a basic understanding of how to make a documentary or how to work with the designing techniques. This workshop introduces fundamental concept of making documentary more suitable and attractive and at the greatest ease. It will emphasize the students to create a professional quality, typeset publication for their undergraduate project reports, writing scientific and technical papers. The main objective of this workshop is to make aware the participants about LaTeX. By the end of the workshop, the participants will be confident enough to typeset their documents using LaTeX.

Inauguration of Workshop by Dr. Vinayambika S Bhat, HoD of E&CE

The Resource Person Mr. Sachin M Naik explained the importance of publishing research papers in reputed journals. He demonstrated beautifully, how the research process opens up new opportunities for learning and career growth of an individual with examples. The students, who have proficient research papers available in their names, possess a maximum chance to get a scholarship to study in the top universities of the world. Apart from that, students can also apply to different courses and scholarships worldwide seeking admission based on their research works. He also explained how to publish the outcomes of academic project as a Journal paper.

The Resource Person Prof. Prateek Rai N explained the need of Technical writing in Outcome Based Education. Each journal has its own specific formatting style. A paper submitted to a conference, and to be published in a conference proceedings book, has to be typeset in compliance with a particular format. Similarly, a university has specific styling and formatting guidelines for graduate students preparing a thesis or a dissertation. Prof. Rai discussed the different tools available for drafting the technical contents and compared their advantages and limitations. Later, he demonstrated the installation and basic functions of LaTeX software / tool which is used to draft / write a technical paper in an efficient manner.

LaTeX is a typesetting system (scripting language) suitable for producing high quality scientific and mathematical documents. It enables authors to typeset and print their work at the highest typographic quality. LaTeX is a popular choice among authors of technical papers. Publications, such as articles, reports, books, dissertations, that are heavy with formulas, figures and tables, are typeset using this language.

Prof. Prateek Rai N demonstrating the installation of LaTeX tool

A hands-on session was scheduled in the afternoon, which enabled the participants to learn the usage and application of LaTeX tool in detail.

A glimpse of Hands-on Session

During the hands-on session, Prof. Rai explained the commands for creating a document, naming the Section & subsections, creating Figure & Table, inserting Page number and Equation. He explained in detail about the basics of Equations, Math mode, Mathematical symbols, Sample code, Sums and integrals, Brackets and braces, Matrices and Arrays, examples of the Matrix, examples of Array, Horizontal spacing, Equation environment, Aligning etc.,. He also explained how Beamer can be used for preparing the power point presentation. At the end, students generated a sample journal template in IEEE format and a sample power point presentation using LaTeX.

A total of 93 students from 6th semester Electronics & Communication Engineering branch were participated in the program.
